

Gulf Coastal Vending Services, LLC.

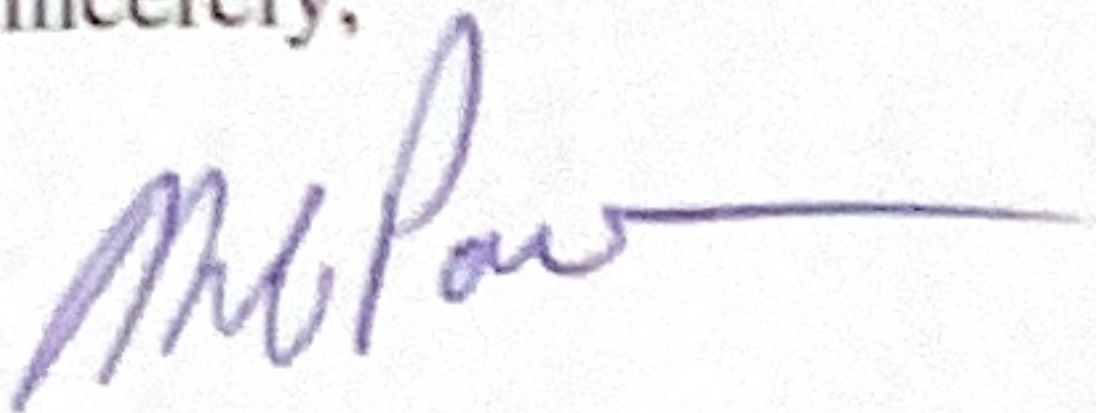

March 3, 2025

Dear Valued Customer

Gulf Coastal Vending Services' mission is to provide food and refreshment services that are unsurpassed in our industry and continually exceed our customer's expectations. We strive to provide that level of service at competitive prices. As you are aware, consumer prices have risen dramatically over the last four years. Our industry is not immune to those increases, as we have received numerous price increases on the products we offer over the last four years. In doing so, very few manufactures sent out price increases notices. While we try to absorb these cost increases through process improvement, efficiency gains, and expense reductions, it is necessary from time to time to raise the prices for our services to offset direct product cost increases.

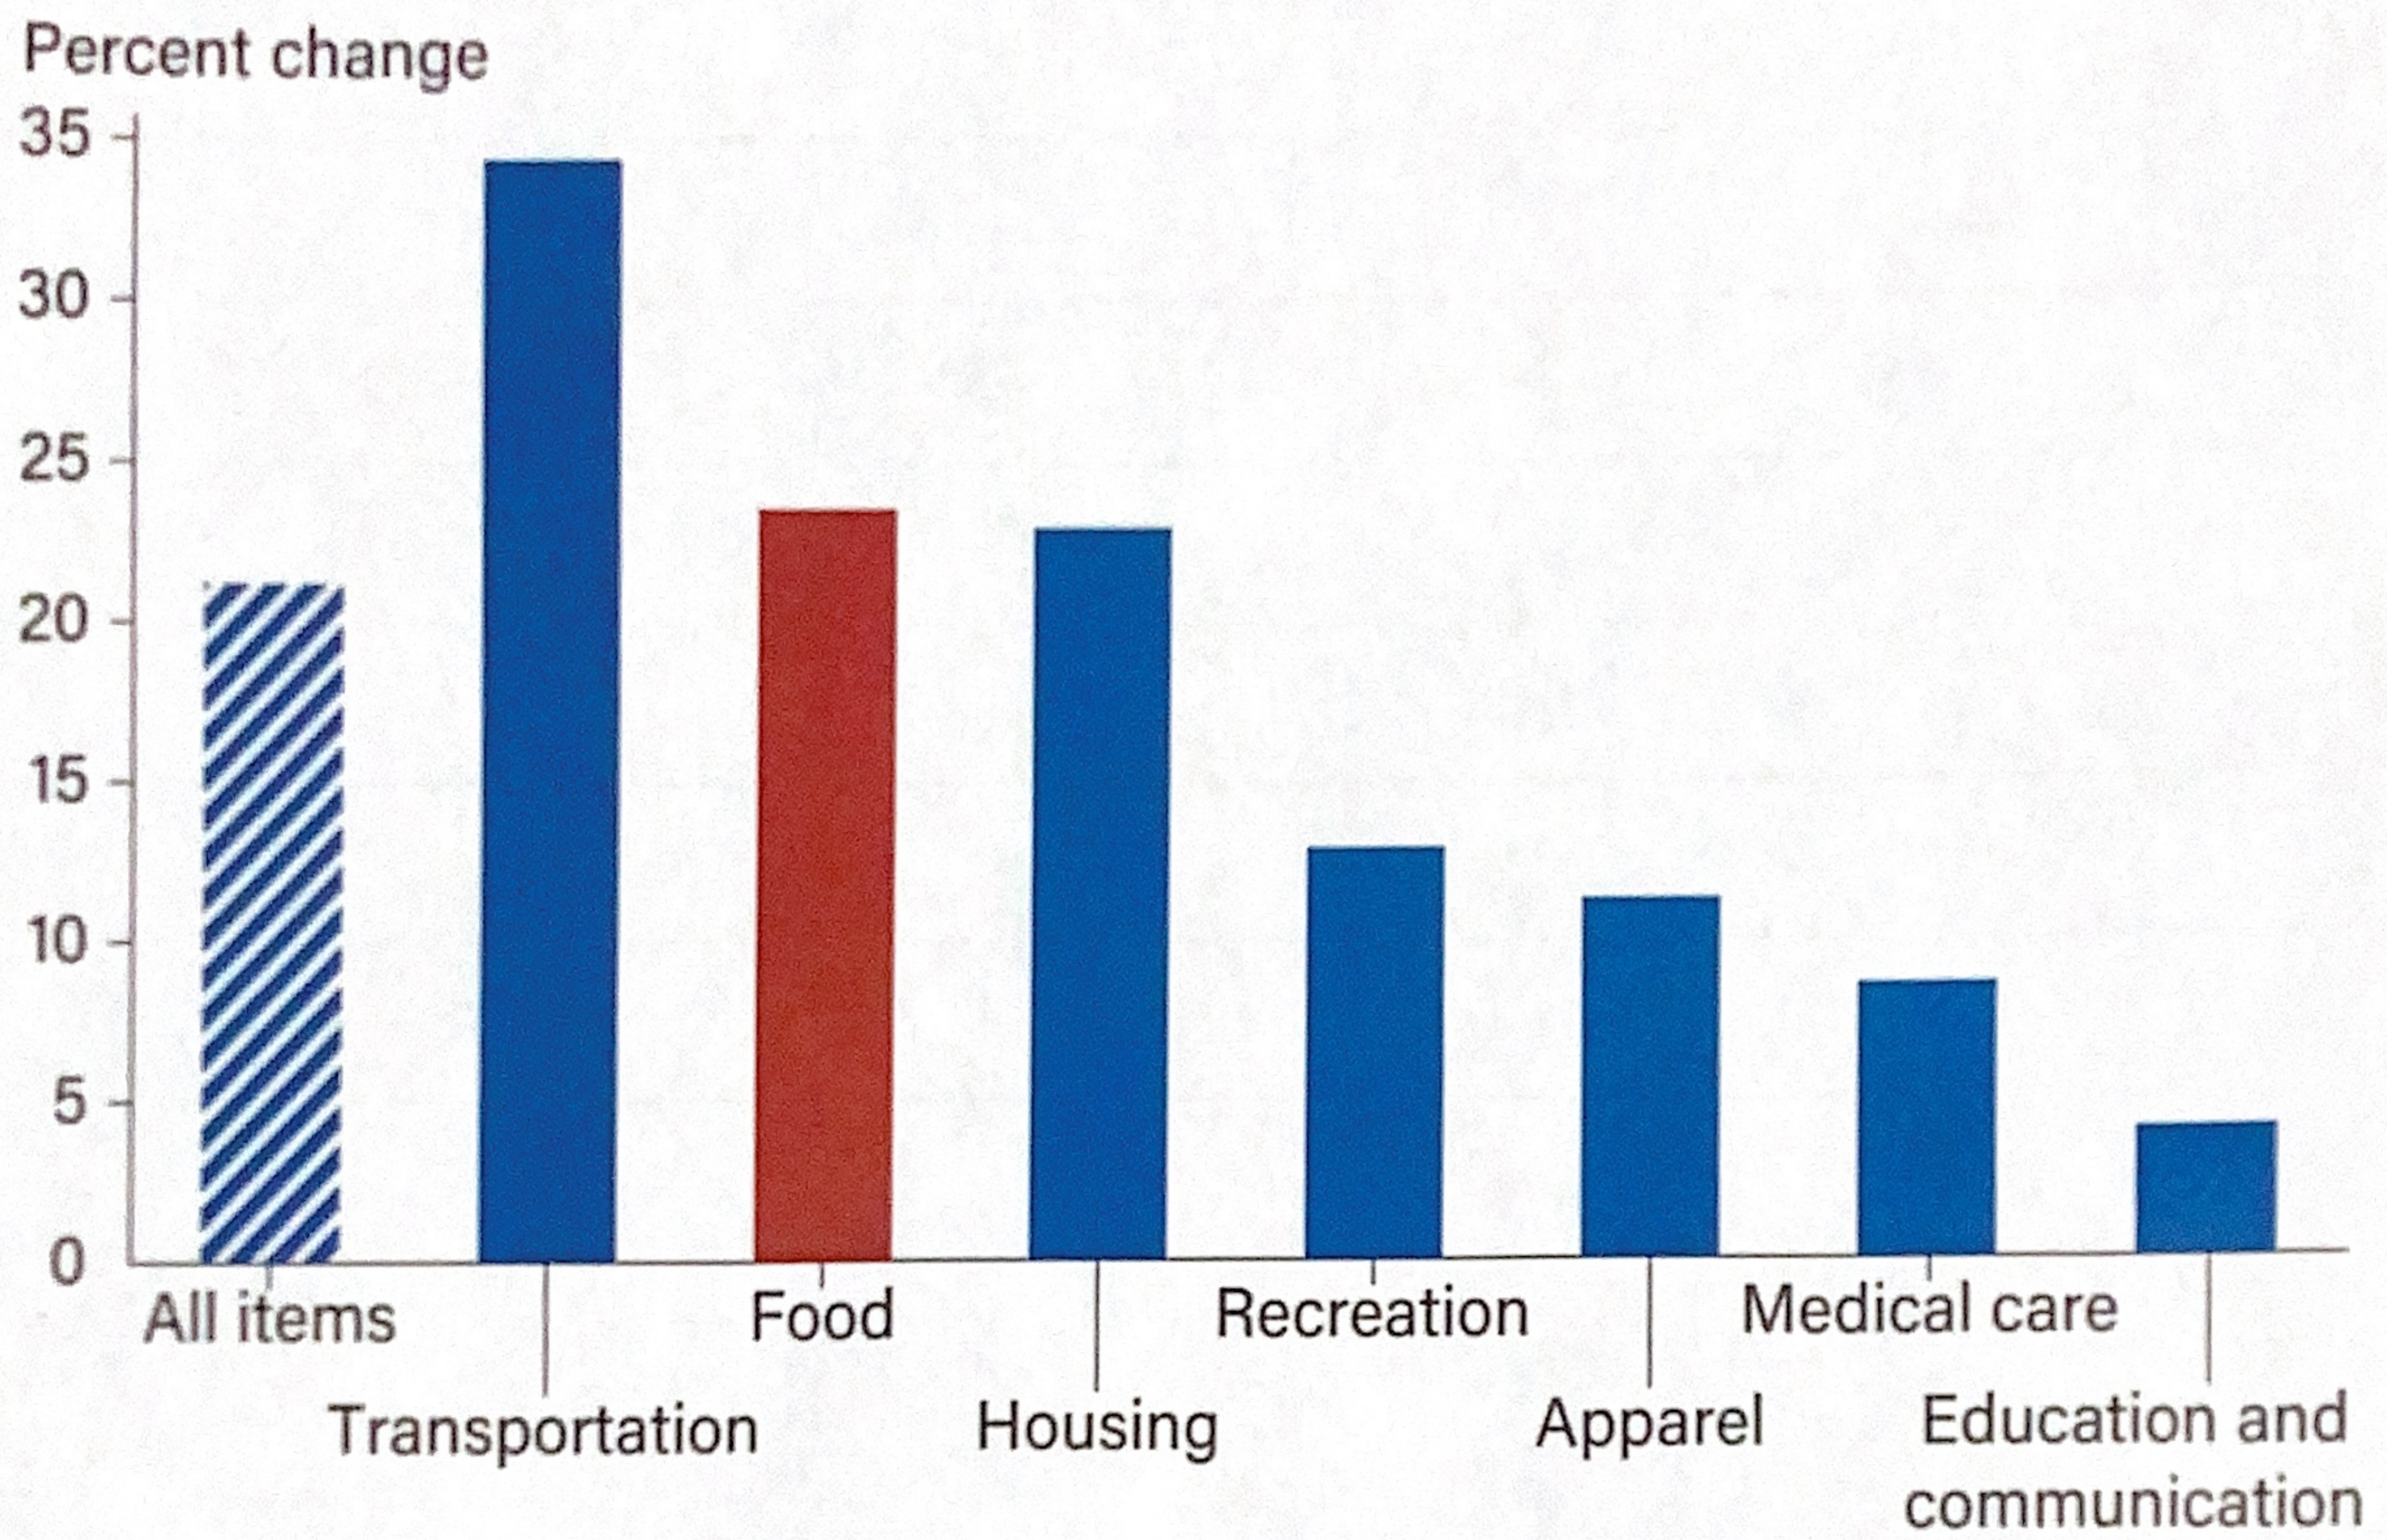

Gulf Coastal Vending Services, LLC. looks forward to continuing our relationship as we continue to provide the quality products and services you have grown accustomed to.

Sincerely,

Gulf Coastal Vending Services, LLC.
Mike Pourcio
