

THE AMERICAN LEGION
Mattson-Ringgold post 503
West Columbia, Texas

February 7, 2025

Ms. Debbie Sutherland
City Manager,
West Columbia, Texas

Dear Debbie,

Our Post 503 has established a project to demolish and replace the cook shed and BBQ pits, and to expand and renovate the outdoor restroom building.

One of the items in the scope of work is to demolish and remove concrete areas of the project. These areas include:

1. The BBQ pits and some slab areas around the pits.
2. Sidewalk between the Legion Hall and the cook shed.
3. Sidewalk between the cook shed and the outdoor restroom.
4. Sidewalk between the Legion Hall and Jefferson Street.

Please pace this concrete demolition effort on the city's Inter-local Agreement with Brazoria County Precinct #4. I have spoken with Precinct Commissioner David Linder about this project. He wants the concrete debris for use by the County, and can schedule this demolition and removal.

This construction project has a scheduled final completion date of Friday, April 25.

Your assistance will be greatly appreciated.

Respectfully,

Sands S Weems III, Commander
