I am putting Tricia on this email as she is our interlocal coordinator.

Tricia: Is this something we can use our blanket interlocal to do or do we need one to be more specific?

If working on the blanket interlocal, when will you be able to supply the trucks & materials? The crew should be completing the work within a few weeks weather permitting.

Please advise.

Thank you for letting me know that we have a pipe separation on CR 543 at CR 808 (Orange Dr.) I was wondering if we could enter into our blanket interlocal agreement with Angleton Drainage District and have your crew and equipment re-set the separated pipe and we will provide and haul the stabilized material (sand or rock) while you still have equipment on site.

Please let me know if this is acceptable for all parties involved.

Thanks,

Jason Filipp
