The Honorable Board of District Judges
The Honorable Commissioners' Court
The Citizens of Brazoria County, Texas

Greetings:

The Annual Comprehensive Financial Report of Brazoria County, Texas, for the fiscal year ended September 30, 2025, is submitted herewith in accordance with Chapter 114.025 of the Local Government Code. The accompanying financial statements were prepared in accordance with accounting principles generally accepted in the United States of America as promulgated by the Governmental Accounting Standards Board and audited in accordance with auditing standards generally accepted in the United States of America by a firm of licensed public accountants.

Management assumes full responsibility for the completeness and reliability of all the information presented in this report. To provide a reasonable basis for making these representations, Brazoria County management has established a comprehensive internal control framework designed both to protect governmental assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the County's financial statements in conformity with Generally Accepted Accounting Principles (GAAP). Brazoria County's comprehensive framework, because the cost of internal controls should not outweigh their benefits, has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement.

KM&L, LLC, Certified Public Accountants, have issued an unmodified (clean) opinion on Brazoria County's financial statements for the year ended September 30, 2025, meaning the financial statements are fairly presented in all material respects. The independent auditor's report is located at the front of the financial section of this report.

The independent audit of the financial statements of Brazoria County was a part of a broader, federally mandated "Single Audit" which is required when an entity receives \$1,000,000 or more in federal funding, and designed to meet the special needs of federal grantor agencies. The standards governing Single Audit engagements require the independent auditor to report not only on the fair presentation of the financial statements, but also on the government's internal controls and compliance with legal requirements. Specific emphasis was placed on internal controls and compliance with laws and regulations involving the administration of federal awards. These reports are included in the single audit section of this report.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report, and it provides a narrative introduction, overview, and analysis of the basic financial statements. MD&A complements this letter of transmittal, and it should be read in conjunction with it.

PROFILE OF BRAZORIA COUNTY

The County of Brazoria is located on the Gulf Coast of Texas and is referred to as "Where Texas Began". It takes its name from the Brazos River, which flows through it. Brazoria County became one of Texas original counties at independence in 1836. The County has a land area of 1,386 square miles. The decennial census levels in Texas determine which of the various State statutes apply to each particular Texas County. Neighboring counties are Matagorda, Wharton, Fort Bend, Harris and Galveston.

The County operates as specified under the Constitution of the State of Texas and Vernon's Texas Code Annotated, which provide for a Commissioners Court consisting of the County Judge and four Commissioners, one from each of four geographical precincts. The County Judge is elected for a term of four years and the Commissioners for four-year staggered terms. Policy-making authority is vested in the Commissioners Court and the Commissioners Court is responsible, among other things, for adopting the budget and for setting county policies.

The County provides a full range of services authorized by statute. Such services include general governmental functions such as recording and licensing, maintaining the county and district court systems, maintaining public facilities, ensuring public safety, maintaining public health and welfare, aiding conservation, and maintaining county roads and bridges.

The annual budget serves as the foundation for Brazoria County's financial planning and control. All departments of the County are required to submit budget requests to the Auditor's Office during May each year. The Auditor's Office then uses these requests as the starting point for developing a proposed budget. The proposed budget is then presented to the Commissioners Court for review. The Commissioners Court is required to hold public hearings on the proposed budget. The appropriated budget is prepared by fund, function (e.g., public safety), department and by the categories of salaries and benefits, operating expenditures, capital outlay and debt services. All transfers of appropriations, either between departments or within an individual department's budget, require the approval of the Commissioners Court. Budget-to-actual comparisons are provided in this report for each individual governmental fund for which an appropriated annual budget has been adopted.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which Brazoria County operates.

Local Economy

Brazoria County is one of Texas' most fertile agricultural areas, one of the regions more prolific fuel and mineral areas, and in recent decades, the location of one of the world's largest basic chemical manufacturing complexes. The primary economic bases of the county include chemical manufacturing, petroleum processing, offshore production maintenance services, diversified manufacturing including pacemakers and computer chips, biochemical and electronic industries, commercial fishing and agriculture. In addition, the area's deep waterway and port facilities, sports fishing services and tourism are major components of the county's economic base.

Brazoria County continues to experience strong growth in population and in its economic base. This is evident by the increases in new home sales, labor force and employment rate. Major industrial investments are also continuing within the County.

Long-term Financial Planning

Brazoria County has adopted several financial management policies to provide guidelines to insure its long-term financial health. The General Fund Balance policy sets a level for reserve funds in the General Fund at 30% of operating expenditures. The Debt Management policy establishes guidelines for debt issuance, debt levels, appropriate types of debt to issue, and debt repayment schedules. These policies have been adopted in the last several years, and the County has remained in compliance with them.

Relevant Financial Policies

Due to the County's large investment in capital projects financed by tax exempt bonded debt, Brazoria County has adopted a debt management policy and a compliance policy for the use and accounting for the proceeds from our debt issues. The debt management policy formalizes the types of debt the County will incur, the preferred method of selling our bonds, guidelines for refinancing existing debt, and the maximum levels of debt permissible. The compliance policy seeks to ensure that bond proceeds will be spent for permissible purposes, that debt proceeds will not be co-mingled with local funds, and that the County will meet its continuing disclosure and arbitrage rebate obligations.

Major Initiatives

The long-term financial plans of the County include multiple capital projects. In 2018, the County purchased land and building for future Courthouse Campus expansion. Planning consultants presented a Courthouse Campus Master plan in 2019. Design was completed in 2021; construction began in early 2022 and although presently on-going, is nearing completion. Various other projects are in progress including other building projects, multiple roads, bridges, and Park enhancements.

As part of future planning, the Commissioners' Court created the Brazoria County Toll Road Authority (BCTRA) in December, 2003. BCTRA is charged with the planning, construction, and operation of the SH288 managed toll lanes. The construction bid was awarded in 2017 and construction was finalized in 2020. The Brazoria County Expressway opened for use to the general public free of charge on November 16, 2020, and tolling began on November 30, 2020. This project added two lanes in each direction and runs from CR58 near Manvel and extends north to Beltway 8. Pre-development is ongoing on the new extension of the Expressway, which will extend from County Road 58 to County Road 56 for approximately 6 miles. Construction is estimated to start in June 2026. Revenues generated are currently being used to completely fund operations and are anticipated to be used to retire a portion of the debt and/or to fund future improvements.

Tax Abatements

Brazoria County is party to several tax abatements. Completed applications, which contain a cost/benefit analysis for each project, can be found on the County website. We are continuing to actively work on increasing the included amount of GFOA-recommended detail and explanation about the County's tax abatements.

AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to Brazoria County for its annual comprehensive financial report for the fiscal year ended September 30, 2024. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement, a government unit must publish an easily readable and efficiently organized annual comprehensive financial report, whose contents conform to program standards. Such ACFR must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The County has received this prestigious award for the last 30 consecutive fiscal years. We believe our current report continues to conform to the Certificate of Achievement program requirements, and we are submitting it to GFOA.

The preparation of this report on a timely basis could not have been accomplished without the efficient and dedicated services of the County Auditor's Office. I want to express my appreciation to all staff members who have assisted in the maintenance of the accounting records of the County, and to the members of the Commissioners' Court for their interest and support in planning and conducting the financial operations of the County in a responsible and progressive manner.

Respectfully submitted,

Kaysie Stewart

Independent Auditor's Report

To the Honorable County Judge

Brazoria County, Texas

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Brazoria County, Texas (the "County"), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the County, as of September 30, 2025, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

The Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the County's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

The Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, required pension schedules and required OPEB schedules on pages 5 through 19 and pages 98 through 109 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The accompanying combining and individual nonmajor fund financial statements, the Financial Data Schedules as required by the Housing and Urban Development, the schedule of expenditures of federal awards, as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, and the schedule of expenditures of state awards as required by the Texas Grant Management Standards are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual nonmajor fund financial statements, the Financial Data Schedules as required by the Housing and Urban Development Department, the schedule of expenditures of federal awards and the schedule of expenditures of state awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the introductory and statistical sections but does not include the basic financial statements and our auditor's report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated March 12, 2026, on our consideration of the County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering County's internal control over financial reporting and compliance.

BRAZORIA COUNTY, TEXAS

Management's Discussion and Analysis For the Year Ended September 30, 2025

As management of Brazoria County, Texas (the "County"), we offer readers of the County's financial statements this narrative overview and analysis of the financial activities of the County for the fiscal year ended September 30, 2025. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal, which can be found on pages i - iv of this report.

Financial Highlights

- The assets and deferred outflows of resources of the County exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year for governmental and business-type activities by \$ 605,195,983 and \$ 8,683,283 (net position), respectively. Of this amount, the governmental activities reported an unrestricted net position of \$ 5,179,378, which may be used to meet the government's ongoing obligations to citizens and creditors within the County's fund designations. The business-type activities reported a deficit unrestricted net position of \$ 2,859,855.
- The County's total net position increased for governmental activities by \$ 48,554,186 and decreased for business-type activities by \$ 1,287,465.
- As of the close of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$ 131,211,814. 36.40% of this total amount, \$ 47,754,692 (unassigned fund balance) is available for use within the County's fund designation. The County's enterprise fund reported ending net position of \$ 8,748,999. The amount of \$ 2,794,139 is a deficit unrestricted net position.
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$ 47,761,419 or 26.88% of the total general fund expenditures.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the County's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the County's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

BRAZORIA COUNTY, TEXAS

Management's Discussion and Analysis For the Year Ended September 30, 2025

The *statement of activities* presents information showing how the County's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in the future fiscal periods (e.g., uncollected taxes and earned but unused compensated absences).

Both of the government-wide financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The *governmental activities* of the County include general administration, judicial and legal, financial administration, elections, public facilities, public safety, corrections, public transportation, health and welfare, public assistance, culture and recreation, conservation, environmental protection, and community development. The *business-type activities* of the County include airport operations.

The government-wide financial statements include not only the County itself (known as the primary government), but also legally separate entities for which the County is financially accountable. Financial information for these component units is reported separately from the financial information presented for the primary government itself. The County's one blended component unit consists of the Brazoria County Industrial Development Corporation. The County's one discretely presented component unit consists of the Brazoria County Toll Road Authority.

The government-wide financial statements can be found on pages 22 through 25 of this report.

Fund Financial Statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

- **Governmental Funds.** *Governmental funds* are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental fund statements of revenues, expenditures, and changes in fund balances, provides reconciliations to facilitate this comparison between governmental funds and governmental activities.

BRAZORIA COUNTY, TEXAS

Management's Discussion and Analysis For the Year Ended September 30, 2025

The County maintains one hundred thirty-six (136) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, the Road & Bridge Fund and the American Rescue Plan 2021 CLFRF Fund; all of which are considered to be major funds. Data from the other one hundred thirty-three (133) funds are combined into a single, aggregated presentation. Individual fund data for each of these other governmental funds is provided in the form of combining statements elsewhere in this report. The basic governmental funds financial statements can be found on pages 26 through 29 of this report.

- **Proprietary Funds.** The County maintains two categories of *proprietary funds*. The *enterprise fund* is used to report the same functions presented as *business-type activities* in government-wide financial statements. The County uses an *enterprise fund* to account for its airport operations. The second type of proprietary fund is the *internal service fund*. Internal service funds are an accounting device used to accumulate and allocate costs of its self-funded health insurance, liability insurance, and health clinic internally among various funds and functions. Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The basic proprietary funds financial statements can be found on pages 30 through 35 of this report.
- **Fiduciary Funds.** *Fiduciary funds* are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are *not* reflected in the government-wide financial statements because the resources of those funds are *not* available to support the County's operations. The County is the trustee, or *fiduciary*, for these funds and is responsible for ensuring that the assets reported in these funds are used for their intended purposes. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position that can be found on pages 36 through 37.

Notes to the Financial Statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements can be found on pages 40 through 95 of this report.

Other Information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information that further explains and supports the information in the financial statements. Required supplementary information can be found on pages 98 through 109 of this report.

The combining statements referred to earlier in connection with non-major governmental funds are presented following the required supplementary information on pensions. Combining and individual statements and schedules can be found on pages 130 through 246 of this report.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$ 613,879,266 as of September 30, 2025.

BRAZORIA COUNTY, TEXAS

*Management's Discussion and Analysis
For the Year Ended September 30, 2025*

The largest portion of the County's net position, \$ 531,491,634 (86.59%) reflects its investments in capital assets (e.g., land; land improvements; buildings and improvements; furniture, equipment and vehicles; subscription based IT assets, runways, taxiways and aprons; infrastructure; and construction in progress), less any debt used to acquire those assets that is still outstanding. The County uses capital assets to provide service to citizens; consequently these assets are not available for future spending. Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Management's Discussion and Analysis
For the Year Ended September 30, 2025

An additional portion of the County's net position of \$ 80,068,109 (13.03%) represents resources that are subject to external restrictions on how they may be used. The remaining balance of unrestricted net position of \$ 2,319,523 (0.38%) may be used to meet the government's ongoing obligations to citizens and creditors.

As of September 30, 2025, the County is able to report positive balances in all three categories of net position, both for the government as a whole, as well as for its separate categories-governmental and business-type activities, with the exception of the deficit unrestricted net position in the business-type activities of \$ 2,859,855, caused primarily by losses on operations.

BRAZORIA COUNTY, TEXAS

*Management's Discussion and Analysis
For the Year Ended September 30, 2025*

Analysis of the County's Operations. Overall the County had an increase in net position of \$ 47,266,721. Governmental activities reported an increase in net position of \$ 48,554,186, while the business-type activities reported a decrease in net position of \$ 1,287,465. The reason for the increase of net position in the governmental activities primarily relates to capital assets balances. Net investment in capital assets balances increased by \$ 45,837,639 substantially due to the acceptance of roads to the County road system of \$ 19,556,145, the use of \$ 10,542,653 from certificates of obligation bonds for the Courthouse Campus Expansion, the receipt of grant funds such as the U.S. Department of Transportation - Highway Planning and Construction Program of \$ 2,710,666 for road projects, and the utilization of Coronavirus State and Local Fiscal Recovery Funds for capital assets of \$ 10,455,964. Unrestricted net position in the governmental activities decreased \$ 7,747,347, primarily due to the utilization of unrestricted funds to supplement the construction of the Courthouse Campus Expansion Project. The reason for the decrease of net position in the business-type activities of \$ 1,287,465 primarily relates to the current year depreciation expense of \$ 1,066,243.

The following table provides a summary of the County's operations for the years ended September 30, 2025 and 2024:

Financial Analysis of the County's Funds

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the County's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the County's governmental funds reported combined ending fund balances of \$ 131,211,814. The unassigned fund balance of \$ 47,754,692 constitutes 36.40% of ending fund balance. The remainder of the fund balance is categorized as 1) nonspendable \$ 5,346,728, 2) restricted \$ 74,542,289, and 3) committed \$ 3,568,105.

Fund balance of the General Fund decreased by \$ 5,189,963; the Road & Bridge Fund increased by \$ 7,872,595; the American Rescue Plan 2021 CLFRF Fund had no change in fund balance; and, other governmental funds increased by \$ 74,262. General Fund decreased due to the transfer of funds for the 2021 Certificate of Obligation C & M Fund to supplement the Courthouse Campus Expansion Project after all Series 2021 bond proceeds were utilized. Road & Bridge Fund increased from reduced spending compared to budgeted amounts. For the American Rescue Plan 2021 CLFRF Fund, the County recognized grant revenue to the extent of authorized expenditures resulting in no change in fund balance. The other governmental funds increase involved multiple non-major funds including special revenue, debt service and capital projects funds.

Proprietary funds. The County's proprietary fund statements provide the same type of information found in the government-wide financial statements, but in more detail. The enterprise fund is used to account for airport operations. Net position at September 30, 2025 amounted to \$ 8,748,999. Total net position decreased \$ 1,246,544 (approximately 12.47%), and the decrease was primarily due to the depreciation expense.

General Fund Budgetary Highlights. Over the course of the year, the County recommended and the Commissioners approved several revisions to budgeted revenue and appropriations. Differences between the original budget and the final amended budget was \$ 0.69 million increase in estimated revenues, and an \$ 11.94 million increase in appropriations and were primarily for the following:

- The \$ 2.2 million increase in interest revenue.
- The \$ 5.1 million increase in issuance of Subscription Based Information Technology Arrangements revenue.
- The \$ 2.5 million re-appropriation of funds for prior year-end encumbrances.
- The \$ 1.8 million in detention center costs for increased payroll and facility water supply project.
- The \$ 1.0 million in sheriff's office costs for increased payroll.
- The \$ 1.1 million for indigent court costs associated with increased judicial activity.
- The \$ 5.1 million for Subscription Based Information Technology Arrangements expenditures.

BRAZORIA COUNTY, TEXAS

Management's Discussion and Analysis For the Year Ended September 30, 2025

During the year, total revenues were less than budgetary estimates and expenditures were less than budgetary estimates. Major variances included:

- Interest revenue exceeded budgetary estimates.
- Expenditures in most governmental functions were less than final budgets with a noteworthy decrease in indigent health care.

Capital Assets

The County's investment in capital assets for its governmental and business-type activities as of September 30, 2025, amounts to \$ 667,209,610 (net of accumulated depreciation/amortization). This investment in capital assets includes land; land improvements; buildings and improvements; furniture, equipment and vehicles; runways, taxiways and aprons; infrastructure; and construction in progress.

Major capital asset events during the current fiscal year included the following:

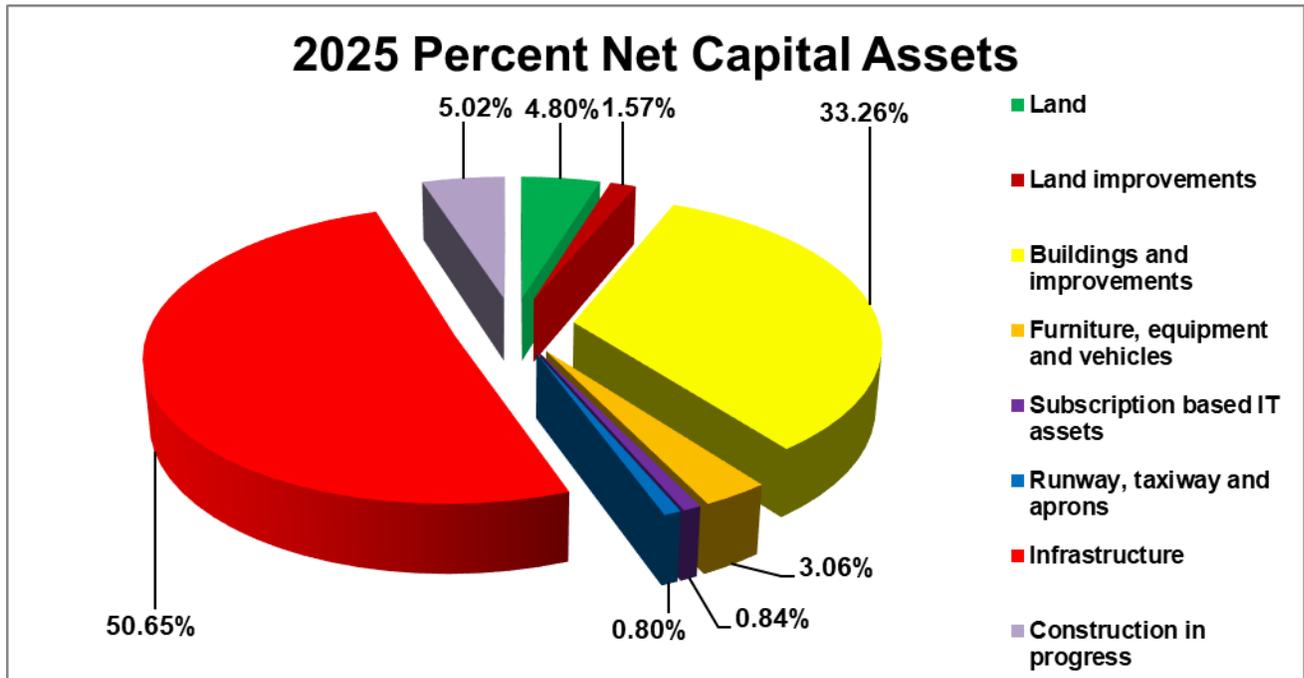

- Right-of-way - \$ 1,670,410, computer hardware - \$817,312.
- Completion of bridges and other drainage improvements - \$ 926,388 and \$ 650,951, respectively.
- Vehicles and equipment were acquired, primarily as replacements to vehicles and road and bridge equipment, for \$ 6,588,296.
- Acceptance of roads to the County's road system for \$ 19,556,145 and completion of various County roads - \$ 30,434,095.
- Completion of improvement projects including: Courthouse Justice Center (building) - \$ 92,927,204, Detention Center (jail) - \$ 131,331, Facility Management (building) - \$ 411,759, Fairgrounds - \$ 131,794, Juvenile (building) - \$ 460,572, Museum (building) - \$ 101,165, Parks - \$ 1,625,073, Parks Headquarters - \$ 9,930,803 and Sheriff's Office Mobile Command - \$ 418,030, and Sheriff's Office Radio Tower - \$ 4,090,437.
- Road and bridge projects were initiated or continued at costs of \$ 13,055,626 and \$ 594,056, respectively.
- A variety of construction in progress projects including: Alvin Annex - \$4,171,668, Courthouse Admin Building - \$ 5,374,051, Courthouse West Annex - \$ 645,579 FM 2918 Boat Ramp - \$ 225,025, Follet's Island Dune Restore - \$ 884,043, Parks - \$ 824,538, Quintana - \$ 285,820, Restore Act grant - Quintana fishing pier - \$ 2,275,416, Surfside Jetty Park Waterfront Revitalization - \$ 660,738, Service Centers - \$ 2,323,902, Sheriff's Office Dispatch Console Upgrade - \$ 357,969, Sheriff's Office Campus Master Plan - \$ 991,459, Sheriff's Office Campus Generators - \$ 219,600, and Sheriff's Office Water Treatment - \$ 474,165.

During the fiscal year, the County's total debt decreased \$ 21,916,743 or 9.33%. The decrease was due to the repayment of certificates of obligation and general obligation bonds and the decrease in the net pension liability.

BRAZORIA COUNTY, TEXAS

Management's Discussion and Analysis For the Year Ended September 30, 2025

All of the outstanding Bonds of the County payable from its limited taxes are insured and are, therefore, rated "Aa1" by Moody's Investors Service Inc. ("Moody's"), "AA+" by Standard & Poor's ("S&P"), and "AAA" by Fitch.

Additional information on the County's long-term debt can be found in Note 7 on pages 72 through 76 of this report.

Economic Factors and Next Year's Budgets and Rates

The County continues to enjoy growth. The population of the County is estimated at 393,694 and is expected to grow to 418,597 by 2029.

The most recent data available indicates the number of households has increased to 140,597 and is expected to grow to 150,185 by 2029. Estimated average (mean) household income is \$ 119,039 and is expected to grow to \$ 136,063 by 2029. Income per capita is currently \$ 42,052 and is expected to grow to \$ 48,348.

All of these factors were considered in preparing the County's budget for the 2026 fiscal year. At the end of the current fiscal year, fund balances in the governmental funds totaled \$ 131,211,814, an increase from the previous year. The County's General Fund balance declined primarily due to a planned drawdown to self-finance the Courthouse Campus Expansion. A secondary factor was Hurricane Beryl (July 2024), which required the County to pay repair costs upfront while awaiting FEMA reimbursement. Although the County expects to receive the maximum eligible reimbursement, the timing is uncertain, resulting in a temporary reduction in fund balance. The General Fund decrease was offset by an increase in the Road & Bridge Fund, driven by lower than budgeted spending and the timing of project activity across the County. The overall tax rate decreased from \$ 0.303546 per \$ 100 of assessed valuation for 2025 to \$ 0.304758 per \$ 100 valuation for 2026.

Exhibit 4R

*Reconciliation of the Statement of Revenues, Expenditures and Change in
Fund Balance - Governmental Funds to Governmental Activities Statement of Activities
For the Year Ended September 30, 2025*

Net change in fund balances - total governmental funds (Exhibit 4) \$ 2,756,894

Amounts reported for *governmental activities* in the statement of activities (Exhibit 2) are different because:

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation/amortization expense.

Capital outlay	\$ 74,932,312	
Depreciation/amortization expense	<u>(32,101,921)</u>	42,830,391

Governmental funds report the entire sales price (proceeds) from the sale of an asset as revenue because it provides current resources. In contrast, in the statement of activities, only the gain/loss on the sale of capital assets is reported. Thus, the change in net position differs from the change in the fund balance by the book value of capital assets sold. (1,043,729)

Debt proceeds provide current financial resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position. Also, governmental funds report the effect on premiums and similar items when debt is issued, whereas these amounts are amortized in the statement of activities.

The net change in net pension liability, deferred outflows and deferred inflows is reported in the statement of activities but does not require the use of current resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Net pension liability decreased	\$ 17,438,704	
Deferred outflows decreased	(5,970,498)	
Deferred inflows increased	<u>(5,102,804)</u>	6,365,402

The net change in net OPEB liability, deferred outflows and deferred inflows is reported in the statement of activities but does not require the use of current resources and, therefore, is not reported as expenditures in the governmental funds. The net change consists of the following:

Net OPEB liability increased	\$ (397,343)	
Deferred outflows decreased	(2,497,612)	
Deferred inflows increased	<u>(1,008,524)</u>	(3,903,479)

Because some property taxes receivable, special assessments receivables and judicial receivables will not be collected for several months after the County's fiscal year ends, they are not considered available revenues in the governmental funds. 749,635

Internal service funds are used by the County. The net revenue of the internal service funds are reported with the governmental activities. (3,890,608)

BRAZORIA COUNTY, TEXAS

Notes to the Financial Statements

For the Year Ended September 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting and reporting policies of Brazoria County, Texas (the "County") related to the funds in the accompanying basic financial statements conform to accounting principles generally accepted in the United States of America applicable to state and local governments. Generally accepted accounting principles for local governments include those principles prescribed by the Governmental Accounting Standards Board (GASB), and the American Institute of Certified Public Accountants. The County applies all applicable GASB pronouncements. The more significant accounting policies of the County are described below.

Reporting Entity

In evaluating how to define the government, for financial reporting purposes, management has considered all potential component units. The decision to include a potential component unit in the reporting entity was made by applying the criteria set forth in GAAP. Based upon the application of these criteria, the following is a brief review of each potential component unit addressed in defining the County's reporting entity. Financial statements for component units can be obtained from the office of the County Auditor.

Included in the reporting entity:

Brazoria County, Texas (Primary Government)

The County is a political subdivision of the State of Texas. The County is governed by the Commissioners Court, composed of four elected County Commissioners and an elected County Judge. Each of these officials serve a term of four years. The primary activities of the County include: the construction and maintenance of county roads, provision of public safety through a sheriff's department, support of area fire protection and ambulance service, administration of justice, correctional facilities, health and welfare services, culture and recreation through libraries, parks and a museum, operation and maintenance of an airport, and other social and administrative services.

Blended with the Primary Government

The relationship between the following component units and the County meet the criteria, for inclusion as part of the reporting entity as a blended component unit.

Brazoria County Industrial Development Corporation

The Brazoria County Industrial Development Corporation (the "BCIDC") is a Texas public, non-profit corporation created on May 22, 2018, in accordance with the Texas Development Corporation Act of 1979. The BCIDC's purpose is to issue bonds on behalf of the County, to finance projects as defined in the Act in order to promote and develop industrial and manufacturing enterprises thus encouraging employment and improving public welfare. The tax-exempt bonds issued by the BCIDC do not constitute a debt or pledge of faith or credit of the BCIDC or the County, but are payable by the user pursuant to terms defined in the loan agreement underlying each issue. Interest received on the bonds is generally exempt from federal income tax under Section 103 of the Internal Revenue Code. The BCIDC is governed by a five-member Board of Directors which is comprised of the Brazoria County Commissioners Court. In addition, management of the primary government has operational responsibility for the activities of the component unit. BCIDC is reported as a special revenue fund and does not issue a separate financial report.

Discretely Presented Component Units

Discretely presented component units are presented in a separate column in the government-wide financial statements to emphasize that they are legally separated from the County. Each of the County's discretely presented component units has a September 30 year-end. The following component unit has been identified and is presented in a discrete format in the County's government-wide financial statements.

Brazoria County Toll Road Authority (the "Authority")

The Authority was created by order of the County on December 16, 2003, to aid, assist and act on behalf of the County, in development of transportation projects within the County, including the Brazoria County Expressway, which subsequently may be extended and pooled with other projects as part of the Brazoria County Toll Road System. The Authority is a local government corporation established under Chapter 284 and 431 of the Texas Transportation Code. The County has financial accountability because it appoints a voting majority of the Board and the County can impose its will. The Authority issues a separate financial report which may be obtained from the Brazoria County Auditor's Office located at 237 E. Locust, Suite 403, Angleton, TX 77515.

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities report financial information on all of the non-fiduciary activities of the primary government). For the most part, interfund activity has been removed from these statements; however, interfund services provided and used are not eliminated in the process of consolidation. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The County has one enterprise fund.

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

BRAZORIA COUNTY, TEXAS

Notes to the Financial Statements

For the Year Ended September 30, 2025

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation - Continued

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the County considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Revenues from property and sales and other taxes, intergovernmental, charges for services, licenses and permits, fines and forfeitures, and interest associated with the current fiscal period are all considered to be susceptible to accrual. Miscellaneous revenues are recorded as revenue when received in cash because they are generally not measurable until actually received. Investment income is recorded as earned, since they are both measurable and available.

Revenue from investments, including governmental external investment pools, is based upon fair value. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. Most investments are reported at amortized cost when the investments have remaining maturities of one year or less at time of purchase. External investment pools are permitted to report short-term debt investments at amortized cost, provided that the fair value of those investments is not significantly affected by the impairment of the credit standing of the issuer, or other factors. For that purpose, a pool's short-term investments are those with remaining maturities of up to ninety days.

Grant funds are considered earned to the extent of the expenditures made under the provisions of the grant. Accordingly, when such funds are received, they are recorded as unearned revenues until the related and authorized expenditures have been made. If balances have not been expended by the end of the project period, grantors sometimes require the County to refund all or part of the unused amount.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, and 2) operating and capital grants and contributions, including special assessments. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all taxes.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the County's enterprise fund are charges to customers for sales and services and rentals.

Operating expenses for the enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses. When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, and then unrestricted resources as they are needed.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Measurement Focus, Basis Of Accounting, and Financial Statement Presentation - Continued

The County has presented the following major governmental funds:

The *General Fund* is the County's primary operating fund. It accounts for all financial resources of the County, except those required to be accounted for in another fund. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the general fund.

The *Road & Bridge Fund* is a special revenue fund that accounts for the property taxes and fees from auto registration, certificates of title, and gross weight and axle fees, and approved expenditures for public transportation projects.

The *American Rescue Plan 2021 CLFRF Fund* accounts for the grant proceeds awarded from the American Rescue Plan Act of 2021 through the United States Department of the Treasury. ARPA established the Coronavirus State Fiscal Recovery Fund and Coronavirus Local Fiscal Recovery Funds, which together make-up the Coronavirus State and Local Fiscal Recovery Funds (CLFRF) program. The funds under this grant provide support for local governments to meet local needs related to continued Covid-19 pandemic response efforts, economic stabilization, water, sewer and broadband infrastructure, and public health and safety.

The County reports the following major enterprise funds:

The *Airport Fund* is used to account for airport operations that are financed and operated in a manner similar to private business enterprises, where the intent of the governing body is that costs (expenses, including depreciation) of providing services be financed primarily through user charges, or where periodic determination of net income is appropriate. Activities of the fund include administration, operations and maintenance of the airport and billing and collection activities. The fund also accounts for the accumulation of resources for, and the payment of, long-term debt principal and interest. All costs are financed through charges to airport customers with rates reviewed regularly and adjusted if necessary to ensure integrity of the fund.

The County reports the following fiduciary funds:

The *Historical Commission Fund* is a private purpose trust fund, which accounts for grant revenues, publication sales, and private donations used by the Historical Commission Board of Directors to preserve Brazoria County's heritage.

The *Custodial Funds* account for assets that the government holds on behalf of others as their agent. The County's custodial funds include, the Groundwater Conservation Fund, the Adult Probation Fund, and the County & District Clerk Fund.

New Pronouncements

GASB issues statements on a routine basis with the intent to provide authoritative guidance on the preparation of financial statements and to improve governmental accounting and financial reporting of governmental entities. Management reviews these statements to ensure that preparation of its financial statements are in conformity with generally accepted accounting principles and to anticipate changes in those requirements. The following recent GASB Statements reflect the action and consideration of management regarding these requirements:

GASB Statement No. 101 "Compensated Absences" was issued in June 2022. The statement was implemented and did not have a material effect on the financial statements of the County. The requirements of this statement are effective for reporting periods beginning after December 15, 2023.

GASB Statement No. 102 "Certain Risk Disclosures" was issued in December 2023. The statement was implemented and did not have a material effect on the financial statements of the County. The requirements of this statement are effective for reporting periods beginning after June 15, 2024.

GASB Statement No. 103 "Financial Reporting Model Improvements" was issued in April 2024. The management of the County does not expect the implementation of this standard to have a material effect on the financial statements of the County. The requirements of this statement are effective for reporting periods beginning after June 15, 2025.

GASB Statement No. 104 "Disclosure of Certain Capital Assets" was issued in September 2024. The management of the County does not expect the implementation of this standard to have a material effect on the financial statements of the County. The requirements of this statement are effective for reporting periods beginning after June 15, 2025.

GASB Statement No. 105 "Subsequent Events" was issued in December 2025. The management of the County does not expect the implementation of this standard to have a material effect on the financial statements of the County. The requirements of this statement are effective for reporting periods beginning after June 15, 2026.

Budgetary Data

The budget law of the State of Texas provides that amounts budgeted for current expenditures from the various funds of the County shall not exceed the balances in the funds, plus the anticipated revenues for the current year as estimated by the County Auditor. The legal level of budgetary control is at the category level (salaries and wages, and employee benefits; operating expenditures/expenses, and capital outlay) within departments of each fund. Any expenditure, which alters the total budgeted amounts of a fund, must be approved by Commissioners Court, and the budget amended. Budgets are adopted on a basis consistent with generally accepted accounting principles.

Within 30 days before the first day of each fiscal year, the County Auditor prepares a proposed operating budget for the subsequent fiscal year beginning the following October 1st to Commissioners Court. The proposed operating budget establishes estimated revenues and other resources available for appropriation. Proposed expenditures may not exceed estimated revenues, other resources, and available fund balances.

Subsequent to May 15 and after proper publication of notice, a public hearing is conducted by the Commissioners Court to obtain taxpayer comments. If an increase to the effective tax rate of more than 3% is proposed as a result of the proposed budget, additional notices and public hearings are required. After the public hearing(s) the Commissioners Court makes appropriate budget changes and adopts the budget through the passage of an order at a regularly scheduled meeting. A separate order is adopted to levy the taxes necessary to finance the budgeted expenditures.

Although the level of budgetary control is total revenues plus available fund balance, the County adopts its budget at a line-item level for managerial control purposes. Line item level is defined for revenue purposes as the type of revenue to be derived and for expenditure purposes by department and type of expenditures (salaries and wages, employee benefits; operating expenses/expenditures; and capital outlay).

Budget amendments to transfer budgeted amounts from one line item to another may be made at the discretion of Commissioners Court. Amendments to provide for items not included in the original budget may be made by the Commissioners Court upon finding and declaration of the existence of an emergency sufficient to require action. County management has no prerogative to amend the budget without the approval of Commissioners Court. Appropriations not exercised in the current year lapse at the end of the year.

Encumbrances

Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting - under which purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation - is utilized. Encumbrances outstanding at year-end are reported as a reservation of fund balances and do not constitute expenditures or liabilities because the commitments will be honored during the subsequent year.

The following outstanding encumbrances were provided for in the subsequent year's budget:

	<u>General Fund</u>	<u>Road & Bridge Fund</u>	<u>Other Governmental Funds</u>	<u>Total</u>
Encumbrances:				
Restricted	\$ 63,762	\$ 649,373	\$ 533,741	\$ 1,246,876
Committed	95,932	-	54,915	150,847
Unassigned	<u>1,440,522</u>	<u>-</u>	<u>-</u>	<u>1,440,522</u>
Total	<u>\$ 1,600,216</u>	<u>\$ 649,373</u>	<u>\$ 588,656</u>	<u>\$ 2,838,245</u>

The Airport Fund also had outstanding encumbrances of \$ 7,096 as of September 30, 2025.

Cash and Investments

Cash and temporary investments include amounts in demand deposits and short-term investments with a maturity date within three months of the date acquired by the County. For purposes of the cash flow statement, cash and temporary investments are considered cash equivalents. In accordance with GASB Statement 31, "Accounting and Financial Reporting for Certain Investments and for External Investment Pools", investments are stated at fair value.

The County maintains a cash and investment pool that is available for use by all funds. Each fund type's portion of this pool is displayed on the combined balance sheet as cash and temporary investments under each fund's caption. Funds are allowed to exceed the amount of their equity in the pooled cash account. Funds with overdrawn accounts are disclosed as an interfund payable in the liability section of the balance sheet.

Restricted Assets

Restricted assets consist of debt service restrictions. Restricted assets for debt service consist of amounts placed in interest and sinking funds from operations and residual balances from proceeds of certificates of obligations and general obligations of the County.

Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements. The cost of prepaid items is recorded as expenditures/expenses when consumed rather than when purchased.

Leases

Lessor

The County is a lessor for a noncancellable lease of various types of property. The County recognizes a lease receivable and a deferred inflow of resources in the financial statements.

The County will not recognize a lease receivable and a deferred inflow of resources for leases with a non-cancellable term of less than 12 months, and income is recognized as earned.

At the commencement of a lease, the County initially measures the lease receivable at the present value of payments expected to be received during the lease term. Subsequently, the lease receivable is reduced by the principal portion of lease payments received. The deferred inflow of resources is initially measured as the initial amount of the lease receivable, adjusted for lease payments received at or before the lease commencement date. Subsequently, the deferred inflow of resources is recognized as revenue over the life of the lease term.

Key estimates and judgments include how the County determines (1) the discount rate it uses to discount the expected lease receipts to present value, (2) lease term, and (3) lease receipts.

- The County uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease. Lease receipts included in the measurement of the lease receivable is composed of fixed payments from the lessee.

The County monitors changes in circumstances that would require remeasurement of its lease, and will remeasure the lease receivable and deferred inflows of resources if certain changes occur that are expected to significantly affect the amount of the lease receivable.

Subscription Based Information Technology Arrangements

The County recognizes a liability and corresponding right to use the information technology software in the government-wide financial statements. The County recognizes subscription liabilities with an initial, individual value of \$ 5,000 or more and a contract term of twelve months or more.

At the commencement of a subscription, the County initially measures the liability at the present value of payments expected to be made during the subscription term. Subsequently, the subscription liability is reduced by the principal portion of subscription payments made. The subscription asset is initially measured as the initial amount of the subscription liability, adjusted for subscription payments made at or before the subscription commencement dates, plus certain initial direct costs. Subsequently, the subscription asset is amortized on a straight-line basis over its useful life.

Subscription Based Information Technology Arrangements - Continued

Key estimates and judgments related to subscriptions include how the County determines (1) the discount rate it uses to discount the expected subscription payments to present value, (2) subscription term, and (3) subscription payments.

- The County generally uses its estimated incremental borrowing rate as the discount rate for subscriptions.
- The subscription term includes the noncancellable period of the subscription. Subscription payments included in the measurement of the subscription liability are composed of fixed payments.

The County monitors changes to circumstances that would require remeasurement of its subscription and will remeasure the subscription asset and liability if certain changes occur that are expected to significantly affect the amount of the subscription.

Subscription assets are reported with other capital assets and subscription liabilities are reported with long-term debt on the statement of net position.

Property Taxes

Property taxes are levied as of October 1st of each year with statements prepared and mailed at that date or soon thereafter. The tax levy is based upon appraised property values as of each previous January 1st for all taxable property within the County. Payments are due and payable when taxes are levied and may be timely paid through January 31st. On February 1st, taxes become delinquent and subject to penalty and interest charges. After June 30th, any uncollected taxes are subject to tax suit and additional charges to offset related legal costs. The lien date for property taxes is July 1st.

The appraisal of property within the county is the responsibility of the Brazoria County Appraisal District. The Texas Legislature established the Appraisal District and the related Appraisal Review Board in 1979 through the adoption of a comprehensive Property Tax Code. The Appraisal District is required under the Code to assess property at 100% of its appraised value. Real property is reappraised at least every four years. Under certain circumstances, taxpayers and taxing units including the County, may challenge orders of the Appraisal Review Board through various appeals and, if necessary, legal action.

Under the Code, the Commissioners Court will continue to set annual tax rates on the property. The Code also provides that, if approved by the qualified voters in the Appraisal District, collection functions may be placed with the Appraisal District. The County bills and collects its property taxes and those of certain other taxing entities. Collections of those taxes pending distribution are accounted for in a liability in the General Fund.

The County is permitted by Article VIII; Section 9 of the State of Texas Constitution to levy taxes up to \$ 0.80 per \$ 100 valuation for general governmental services including payment of principal and interest on general long-term debt and maintenance of roads and bridges. Article 6790 of Vernon's Civil Statutes permits the County to collect an additional \$ 0.15 per \$ 100 valuation for road & bridge purposes. Article 7048a of Vernon's Civil Statutes permits the County to collect \$ 0.30 per \$ 100 valuation for road, bridge and flood control purposes. The taxpayers of the County authorized a separate tax not to exceed \$ 0.05 per \$ 100 valuation during the approval of the Mosquito Control District in April 1955.

Property Taxes - Continued

The County's 2024 tax levy, supporting the 2025 fiscal period budget, totaled \$ 0.303546 per \$ 100 valuation and was comprised as follows:

Constitutional Levy:	
General Fund	\$ 0.208517
Road & Bridge	0.030000
Mosquito Control	0.005000
Debt Service	0.018108
Special Road & Bridge:	
Article 6790	<u>0.041921</u>
Combined tax rate	<u>\$ 0.303546</u>

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All outstanding balances between funds are reported as "due to/from other funds". The County had no advances between funds. All activity between funds was for short-term cash flow requirements.

Inventories

The County utilizes the consumption method to account for inventory. Under this method, inventory is considered an expenditure when used rather than when purchased. Significant inventories are reported on the balance sheet at cost, using the first-in, first-out method, with an offsetting reservation of fund balance in the governmental fund financial statements since they do not constitute "available spendable resources" even though they are a component of current assets. Inventories in the governmental funds are comprised of road materials, bulk fuel and chemicals. Inventory of the proprietary fund type is comprised of bulk fuel held for sale. Changes in inventory balances for a proprietary fund type have a direct effect on respective cost of sales.

Capital Assets

Capital assets, which include land, land improvements, buildings and improvements, furniture, equipment and vehicles, subscription based IT assets, runways, taxiways and aprons, infrastructure, and construction in progress are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their acquisition value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Capital Assets - Continued

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. During the year ended September 30, 2025, no capitalized interest was included in the cost of capital assets under construction.

Assets capitalized have an original cost of \$ 5,000 or more and over two years of useful life. Depreciation and amortization has been calculated on each class of depreciable or amortizable property using the straight-line method. Estimated useful lives are as follows:

Land improvements	12-40 Years
Buildings and improvements	9-40 Years
Furniture, equipment and vehicles	2-20 Years
Subscription based IT assets	2-6 Years
Runways, taxiways and aprons	15-20 Years
Infrastructure	20-50 Years

Compensated Absences

Employees are allowed paid absences due to sickness, vacation and compensatory time. As of January 1, 2000, sick leave benefits are earned by all full time employees at a rate of 96 hours annually. The leave policy allows employees to accumulate up to sixty days of sick leave benefit. Sick leave benefits are recognized in the period in which time off is actually taken. Vacation benefits accrue monthly at rates depending upon an employee's length of service. Vacation benefits must be taken annually and are limited to a carryover period depending upon the employee's length of service.

Effective January 1, 2000, the County implemented a sick leave pool. The sick leave pool provides additional sick leave days to employees in the event of a catastrophic illness or injury, surgery, or disability that prevents an employee from active employment. Days are applied from the pool only after the employee exhausts all accrued sick, vacation and compensatory time. The Sick Leave Pool Committee, an elected body of pool members who serve as the pool administrator, authorizes benefits from the pool.

Compensatory time represents time worked by employees in excess of 40 hours per week, and is earned at one and one-half times such hours worked. This applies to all non-exempt employees. Exempt employees are all department heads, supervisory personnel, and certain other professional or administrative positions. The maximum compensatory time an employee may accumulate is 240 hours. All such paid absences are paid at the employee's regular pay rate. The liability for compensated absences disclosed in the financial statements represents accumulated vacation and compensatory time at September 30, 2025, computed at pay rates in effect at that time.

Compensated absence liabilities for governmental activities have been paid from the general fund and various special revenue funds, and liabilities for business-type activities have been paid by the airport fund.

Deferred Outflows and Inflows of Resources

Guidance for deferred outflows of resources and deferred inflows of resources is provided by GASB No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position". Concepts Statement No. 4, Elements of Financial Statements, introduced and defined those elements as a consumption of net assets by the government that is applicable to a future reporting period, and an acquisition of net assets by the government that is applicable to a future period, respectively. Previous financial reporting standards do not include guidance for reporting those financial statement elements, which are distinct from assets and liabilities. Further, GASB No. 65, "Items Previously Reported as Assets and Liabilities", had an objective to either (a) properly classify certain items that were previously reported as assets and liabilities as deferred outflows of resources or deferred inflows of resources or (b) recognize certain items that were previously reported as assets and liabilities as outflows of resources (expenses or expenditures) or inflows of resources (revenues).

Pension Plans

The fiduciary net position of the Texas County & District Retirement System (TCDRS) has been determined using the flow of economic resources measurement focus and full accrual basis of accounting. This includes for purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, and information about assets, liabilities and additions to/deductions from TCERS's fiduciary net position. Benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Postemployment Benefits Other Than Pensions (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the Brazoria County Retiree Benefits Plan (BCRBP) and additions to/deductions from BCRBP's fiduciary net position have been determined on the same basis as they are reported by BCRBP. For this purpose, BCRBP recognizes benefit payments when due and payable in accordance with the benefit terms. Investments are reported at fair value, except for money market investments and participating interest-earning investment contracts that have a maturity at the time of purchase of one year or less, which are reported at cost.

Long-Term Debt

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities or proprietary fund type statement of net position. Bond premiums and discounts are amortized over the life of the bonds using the straight-line method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are reported as expenditures and expenses at the time of the transaction.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt is reported as other financing resources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Fund Balance

The County's Commissioners Court meets on a regular basis to manage and review cash financial activities and to ensure compliance with established policies. The County's Unassigned General Fund Balance is maintained to provide the County with sufficient working capital and a margin of safety to address local and regional emergencies without borrowing. The unassigned General Fund balance may only be appropriated by resolution of the County's Commissioners Court. Fund balance of the County may be committed for a specific source by formal action of the County's Commissioners Court. Amendments or modifications of the committed fund balance must also be approved by formal action by the County's Commissioners Court. When it is appropriate for fund balance to be assigned, the County's Commissioners Court has delegated authority to the County Judge or the County Auditor. In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, resources will be expended as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance.

Fund Balance Classifications:

The *nonspendable* fund balance includes a portion of net resources that cannot be spent because of their form or because they must be maintained intact. Resources not in spendable form include supplies inventories, prepaid items, and long-term receivables net of unearned interest revenue.

The *restricted* fund balance includes net resources that can be spent only for the specific purposes stipulated by constitution, external resource providers (creditors, grantors, and contributors), laws and regulations of other governments, or through enabling legislation.

The enabling legislation authorizes the County to access, levy, charge or otherwise mandate payment of resources from external resource providers; those resources can be used only for the specific purposes stipulated in the legislation. The County's fee revenue generated through enabling legislations include auto registration fees, birth/death certificate fees, adult bond supervision fees, child abuse protection fees, graffiti eradication fees, court technology fees, election service fees, family protection fees, financial security fees, juvenile case management fees, law library fees, records archive fees, and records management and preservation fees reported under Non-major Special Revenue Funds, and auto registration fees, certificates of title, and gross weight and axle fees reported under the Road & Bridge Fund.

Fund Balance - Continued

The *committed* fund balance includes spendable net resources that can only be used for specific purposes pursuant to constraints imposed by formal Commissioners Court actions, no later than the close of the fiscal year. These actions must be in the form of a resolution approved by Commissioners Court. Those constraints remain binding unless removed or changed in the same manner employed to previously commit those resources, which was formal action of Commissioners Court.

The *assigned* fund balance includes amounts that are constrained by the County’s intent to be used for specific purposes, but are neither restricted nor committed. Such intent should be expressed by Commissioners Court or its designated officials to assign amounts to be used. Constraints imposed on the use of assigned amounts can be removed with no formal Commissioners Court actions. At September 30, 2025, there were no assignments of fund balance.

The *unassigned* fund balance represents spendable net resources that have not been restricted, committed, or assigned to specific purposes. The general fund is the only fund that reports a positive fund balance amount. In other governmental funds, it is not appropriate to report a positive unassigned fund balance amount. However, in governmental funds other than the general fund, if expenditures incurred for specific purposes exceed the amounts that are restricted, committed, or assigned to those purposes, it may be necessary to report a negative unassigned fund balance in that fund.

NOTE 2 - DEPOSITS AND INVESTMENTS

The County classifies deposits and investments for financial statement purposes as cash and temporary investments, and investments based upon both liquidity (demand deposits) and maturity date (deposits and investments) of the asset at the date of purchase. For this purpose, a temporary investment is one that when purchased had a maturity date of three months or less. See Note 1 for additional Governmental Accounting Standards Board Statement No. 31 disclosures. Cash and temporary investments as reported on the financial statements at September 30, 2025 are as follows:

Deposits

Custodial Credit Risk - Deposits. Custodial credit risk is the risk that in the event of a financial institution failure, the County’s deposits may not be returned to them. The County requires that all deposits with financial institutions be collateralized in an amount equal to 100 percent of uninsured balances.

At year-end, in addition to petty cash of \$ 36,080, the carrying amount, of the County's deposits, was \$ 57,779,292, while the financial institution balances totaled \$ 61,453,765. Of these balances, \$ 16,614,544 represents amounts controlled by County courts and held by various financial institutions jointly under the name of the County and the court's beneficiaries and carrying the identification number of the beneficiaries. These accounts are entirely covered by federal deposit insurance. Of the financial institution balances, \$ 500,000 was covered by federal depository insurance coverage, and \$ 44,339,221 was covered by collateral held by the County's agent in the County's name.

Investments

Chapter 2256 of the Texas Government Code (the Public Funds Investment Act) authorizes the County to invest its funds under written investment policy (the “investment policy”) that primarily emphasizes safety of principal and liquidity, addresses investment diversification, yield, and maturity and addresses the quality and capability of investment personnel. This investment policy defines what constitutes the legal list of investments allowed under the policies, which excludes certain instruments allowed under chapter 2256 of the Texas Government Code.

Investments - Continued

The County's deposits and investments are invested pursuant to the investment policy, which is approved by Commissioners Court. The investment policy includes lists of authorized investment instruments and allowable stated maturity of individual investments. In addition it includes an "Investment Strategy Statement" that specifically addresses each investment option and describes the priorities of suitability of investment type, preservation and safety of principal, liquidity, marketability, diversification and yield. Additionally, the soundness of financial institutions (including broker/dealers) in which the County will deposit funds is addressed. The County's investment policy and types of investments are governed by the Public Funds Investment Act (PFIA). The County's management believes it complied with the requirements of the PFIA and the County's investment policy.

The County's Investment Officer submits an investment report each quarter to the Commissioners Court. The report details the investment positions of the County and the compliance of the investment portfolios as they relate to both the adopted investment strategy statements and Texas State law.

The County Investment Officer is authorized to invest in the following investment instruments provided that they meet the guidelines of the investment policy:

1. Obligations of the United States or its agencies and instrumentalities;
2. Direct obligations of the State of Texas or its agencies and instrumentalities;
3. No-load money market mutual funds: regulated by SEC, with a dollar-weighted average stated maturity of 90 days or less, includes in its investment objectives the maintenance of a stable \$ 1.00 net asset value per each share, and limited in quantity to the requirements, set forth in Chapter 2256, Government Code Section 2256.014;
4. Other obligations, the principal and interest of which are unconditionally guaranteed or insured by, or backed by the full faith and credit of, the State of Texas or the United States or their respective agencies and instrumentalities;
5. Obligations of states, agencies, counties, cities, and other political subdivisions of any state rated as to investment quality by a nationally recognized investment rating firm not less than A or its equivalent;
6. Certificates of deposit if issued by a state or national bank domiciled in the State of Texas and is: guaranteed or insured by the Federal Deposit Insurance Corporation or its successor, secured in any manner and amount provided by law for deposits of the County;
7. Fully collateralized repurchase agreements, if it: has a defined termination date, is secured by obligations described by Section 2256.009(a)(1) of the Public Funds Investment Act, requires the securities being purchased by the County to be pledged to the County, held in the County's name, and deposited at the time the investment is made with the County or with a third party selected and approved by the County, is placed through a primary government securities dealer, approved by the County, or a financial institution doing business in the State of Texas;
8. Commercial paper is an authorized investment, if the commercial paper: has a stated maturity of 270 days or fewer from the date of its issuance, and is rated not less than A-1 or P-1 or an equivalent rating by at least two nationally recognized credit agencies or one nationally recognized credit rating agency and is fully secured by an irrevocable letter of credit issued by a bank organized and existing under the laws of the United States or any state;
9. Eligible investment pools if the Commissioners Court by resolution authorizes investment in the particular pool. An investment pool shall invest funds it receives from entities in authorized investments permitted by the Public Funds Investment Act. The County by contract may delegate to an investment pool the authority to hold legal title as custodian of investments purchased with its local funds; and,

NOTE 2 - DEPOSITS AND INVESTMENTS - Continued

Investments - Continued

The County participates in three Local Government Investment Pools (LGIPs): Texpool, Texas Class and U.S. Bank Government Obligation Fund. The State Comptroller oversees Texpool with Federated Securities Corporation managing the daily operations of the pool under a contract with the State Comptroller. Advisory boards consisting of participants or their designees, maintains oversight responsibility for Texas Class. The U.S. Bank Government Obligation Fund is managed by U.S. Bancorp Asset Management, Inc. for its daily operations. These external investment pools are not registered with the Securities and Exchange Commission, and the County’s fair value of its position in these pools are not same as the value of the pool shares. These funds seek to maintain a constant net asset value of \$ 1.00, although this cannot be fully guaranteed.

The County invests in Texpool and Texas CLASS to provide its liquidity needs. Texpool and Texas CLASS Fund are local government investment pools that were established in conformity with the Interlocal Cooperation Act, Chapter 791 of the Texas Government Code and the Public Funds Investment Act, Chapter 2256 of the Code. Texpool and Texas CLASS are 2(a)7 like funds, meaning that they are structured similar to a money market mutual fund. Such funds allow shareholders the ability to deposit or withdraw funds on a daily basis. Interest rates are also adjusted on a daily basis. Such funds seek to maintain a constant net asset value of \$ 1.00, although this cannot be fully guaranteed. Texpool and Texas CLASS are rated AAA and must maintain a dollar weighted average maturity not to exceed 60 days, which is the limit. At September 30, 2025 Texpool and Texas CLASS had a weighted average maturity of 44 days and 43 days, respectively. Although Texpool and Texas CLASS portfolios had a weighted average maturity of 44 days and 43 days, respectively, the County considers holdings in these funds to have a one day weighted average maturity. This is due to the fact that the share position can usually be redeemed each day at the discretion of the shareholder, unless there has been a significant change in value.

As of September 30, 2025, the County had the following investments:

Credit Risk - As of September 30, 2025, the LGIPs (which represent approximately 87.59% of the investment portfolio) are rated AAAM by Standard and Poor's or AAA by Fitch. The government agency securities rated A-1 by Standard and Poor's and P-1 by Moody's (represent approximately 12.41% of the investment portfolio) are registered and the County's agent holds the securities in the County's name; therefore, the County is not exposed to credit risk.

Interest Rate Risk - As a means of minimizing risk of loss due to interest rate fluctuations, the Investment Policy requires that investment maturities will not exceed the lesser of a dollar weighted average maturity of 365 days or the anticipated cash flow requirements of the funds. Quality short-to-medium term securities should be purchased, which complement each other in a structured manner that minimizes risk and meets the County's cash flow requirements.

Fair Value Measures

Governmental Accounting Standards Board (GASB) Statement No. 72 *Fair Value Measurement and Application* establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under GASB Statement No. 72 are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Receivables From Other Governments

The County participates in a variety of federal and state programs from which it receives grants to, partially or fully, finance certain activities. In addition, the County receives entitlements from the State through the legislative actions and taxes collected by the State on behalf of the County (sales and other taxes). All federal grants shown below are either direct or passed through state or local agencies and are reported on the financial statements as due from other governments.

Amounts due from federal, state, and local governments as of September 30, 2025 are summarized below:

Judicial Receivables

Judicial receivables are reported in the governmental activities statement of net position accounts line. Since these receivables do not represent current available resources, they are not reported in the governmental funds balance sheet. The allowance for uncollectible receivables related to the County's various court assessments is determined based on historical experience and evaluation of collectability in relation to the aging of customer accounts. The following is a summary of the receivable and allowance for uncollectible as of September 30, 2025:

Discretely Presented Component Unit

Discretely presented component unit long-term bonded debt as of September 30, 2025 is listed below:

The Authority issued limited contract tax and subordinate lien revenue bonds, which were issued in part as current interest bonds and in part as convertible capital appreciation bonds. The convertible capital appreciation bonds have a conversion date of March 1, 2025, where they will convert to current interest bonds. The Authority also issued limited contract tax and subordinate lien revenue bond anticipation notes. These subordinate lien revenue bonds and notes are paid through the Authority's Debt Service Fund from toll fees collected by the Authority.

Total					<u>\$116,160,000</u>

Revenue bond transactions for the year ended September 30, 2025 were as follows:

Bonds outstanding, October 1, 2024	\$ 85,354,448
Issued	30,325,000
Accretion	<u>480,552</u>
Bonds outstanding, September 30, 2025	<u>\$ 116,160,000</u>

On January 30, 2020, the Authority sold \$ 24,985,000 of Limited Contract Tax and Subordinate Lien Toll Road Revenue Refunding Bonds, Series 2020. The net proceeds of \$ 29,915,325 were placed in escrow for the defeasement of \$ 29,700,000 in the Limited Contract Tax and Subordinate Lien Toll Road Revenue Bond Anticipation Notes, Series 2017B. These refunding bonds (Series 2020) were issued to provide for long-term financing of the costs of the Brazoria County Expressway by refunding the Limited Contract Tax and Subordinate Lien Toll Road Revenue Bond Anticipation Notes, Series 2017B and to pay for the costs of issuance associated with the Series 2020 bonds. This refunding issue defeased all of the outstanding bond anticipation notes from the original issue of 2017. All future debt service payments on the original bonds were provided for by placing the proceeds of the refunding bonds in an irrevocable trust. Accordingly, the trust account assets and the liability for the defeased bonds are not included in the Authority's basic financial statements. This is a conversion of old debt to new debt, therefore, there are no differences between cash flow required to service the old debt to service the new debt and there is no economic gain for the refunding of the old bonds to the new bonds.

NOTE 8 - LEASES

The County owns various types of property that are held for lease. There are three types of leases: ground leases, hanger leases and building leases. The terms of the leases expire in various years through 2033.

As of September 30, 2025 the County's receivable for lease payments was \$ 1,866,360 and the balance of the deferred inflow of resources associated with these leases was \$ 1,720,789. The deferred inflow of resources associated with these leases will be recognized as revenue over the lease term. The County recognized \$ 322,489 in lease revenue and \$ 58,655 in interest revenue during the fiscal year 2025 related to these leases.

Minimum future rentals to be received on noncancelable leases as of September 30, 2025 are as follows:

<u>Year Ended September 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2026	\$ 312,890	\$ 51,172	\$ 364,062

NOTE 9 - SUBSCRIPTION BASED INFORMATION TECHNOLOGY ARRANGEMENTS

The County has entered into subscription based information technology arrangements (SBITAs) for the right to use the other party's information technology software which have been accounted for in accordance with GASB 96. The County is required to make annual payments on each arrangement at the County's incremental borrowing rate or the interest rate stated or implied in the subscription term which ranges from 2.3643% to 3.3330%. The value of the right to use subscription asset as of September 30, 2025 is \$ 7,325,160 with accumulated amortization of \$ 1,750,925.

The future principal and interest SBITA payments for governmental activities as of September 30, 2025 are as follows:

NOTE 10 - TEXAS COUNTY AND DISTRICT RETIREMENT SYSTEM PENSION PLAN

Plan Description - The County provides retirement, disability, and death benefits for all of its full-time employees through a non-traditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of more than 890 non-traditional defined benefit plans. TCDRS in the aggregate issues a annual comprehensive financial report (ACFR) on a calendar year basis. The ACFR is available upon written request from the TCDRS Board of Trustees at P.O. Box 2034, Austin, TX 79768-2034.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at age 60 and above with 8 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 75 or more. Members are vested after 8 years of service, but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

All eligible employees of the County are required to participate in TCDRS.

The plan provisions are adopted by Commissioner’s Court of the County, within the options available in the state statutes governing TCDRS. Plan provisions for the County were as follows:

	<u>Plan Year 2025</u>	<u>Plan Year 2024</u>
Employee deposit rate	7.00%	7.00%
Employer deposit rate	13.27%	13.27%
Matching ratio (County to employee)	2 to 1	2 to 1
Years required for vesting	8	8
Service retirement eligibility (expressed as age/years of service)	60/8, 0/30	60/8, 0/30

Employees Covered by Benefit Terms:

At the December 31, 2024 valuation and measurement date, the following employees were covered by the benefit terms:

Inactive employees or beneficiaries currently receiving benefits	1,074
Inactive employees entitled to but not yet receiving benefits	1,508
Active employees	<u>1,598</u>
	<u><u>4,180</u></u>

Contributions - The contribution rates for employees in TCDRS are either 4%, 5%, 6%, or 7% of employee compensation, and the employer matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the employer. Under the state laws governing TCDRS, the contribution rate for each employer is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. Participating employers are required to contribute at the actuarially determined rates to ensure adequate funding for each employer’s plan. Employer contribution rates are determined annually and approved by the TCDRS Board of Trustees.

NOTE 10 - TEXAS COUNTY AND DISTRICT RETIREMENT SYSTEM PENSION PLAN - Continued

Each employer has the opportunity to make additional contributions in excess of its annual required contribution rate either by adopting an elected rate that is higher than the required rate or by making additional contributions on an ad hoc basis. Employers may make additional contributions to pay down their liabilities faster, pre-fund benefit enhancements and/or buffer against future adverse experience. In addition, employers annually review their plans and may adjust benefits and costs based on their local needs and budgets. Although accrued benefits may not be reduced, employers may reduce future benefit accruals and immediately reduce costs.

Employees of the County were required to contribute 7.00% of their annual compensation during the fiscal year. The County’s required contribution rates of 12.91% and 13.27% in calendar years 2025 and 2024, respectively. The County’s contributions to TCDRS for the year ended September 30, 2025 were \$ 14,494,094.

Net Pension Liability - The County’s Net Pension Liability was measured as of December 31, 2024, and the Total Pension Liability (TPL) used to calculate the Net Pension Liability was determined by an actuarial valuation as of that date.

Actuarial Assumptions:

The Total Pension Liability in the December 31, 2024 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.50% per year
Overall payroll growth	3.00% per year
Investment Rate of Return	7.50%, net of pension plan investment expense, including inflation

Except where indicated in the section of this GASB 68 report entitled “Actuarial Methods and Assumptions Used for GASB Calculations”, the assumptions used in this analysis for the December 31, 2024 financial reporting metrics are the same as those used in the December 31, 2024 actuarial valuation analysis for the County.

Following is a description of the assumptions used in the December 31, 2024 actuarial valuation analysis for the County. This information may also be found in the Brazoria County December 31, 2024 Summary Valuation Report.

Economic Assumptions:

TCDRS System-Wide Economic Assumptions

Real rate of return	5.00%
Inflation	2.50%
Long-term investment return	7.50%

BRAZORIA COUNTY, TEXAS

Notes to the Financial Statements

For the Year Ended September 30, 2025

NOTE 10 - TEXAS COUNTY AND DISTRICT RETIREMENT SYSTEM PENSION PLAN - Continued

The assumed long-term investment return of 7.50% is net after investment and administrative expenses and is expected to enable the system to credit each employer’s Subdivision Accumulation Fund (SAF) with a nominal annual rate of 7.50% on the combined Employee Savings Fund (ESF) and SAF funds, less the amount credited to the County’s ESF. Under the TCDRS Act, the ESF is credited with a nominal annual rate of 7.00%. It is assumed interest will be credited at the nominal annual rate of 7.50% for calculating the actuarial accrued liability and the normal cost contribution rate for the retirement plan of each participating employer.

The annual salary increase rates assumed for individual members vary by length of service and by entry-age group. The annual rates consist of a general wage inflation component of 3.00% (made up of 2.50% inflation and 0.50% productivity increase assumptions) and a merit, promotion and longevity component that on average approximates 1.70% per year for a career employee.

Employer Specific Economic Assumptions

Growth in membership	0.00%
Payroll growth	3.00%

The payroll growth assumption is for the aggregate covered payroll of an employer.

The long-term expected rate of return on TCDRS assets is determined by adding expected inflation to expected long-term real returns, and reflecting expected volatility and correlation. The capital market assumptions and information shown below are provided by TCDRS’ investment consultant, Cliffwater LLC. The numbers are based on January 2025 information for a 10-year time horizon.

The valuation assumption for long-term expected return is re-assessed in detail at a minimum of every four years, and is set based on a long-term time horizon. The TCDRS Board of Trustees adopted the current assumption at their March 2021 meeting. The assumption for the long-term expected return is reviewed annually for continued compliance with the relevant actuarial standards of practice. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

Discount Rate - The discount rate is the single rate of return that, when applied to all projected benefit payments results in an actuarial present value of projected benefit payments equal to the total of the following:

1. The actuarial present value of benefit payments projected to be made in future periods in which (a) the amount of the pension plan's fiduciary net position is projected to be greater than the benefit payments that are projected to be made in that period and (b) pension plan assets up to that point are expected to be invested using a strategy to achieve the long-term rate of return, calculated using the long-term expected rate of return on pension plan investments.
2. The actuarial present value of projected benefit payments not include in (1), calculated using the municipal bond rate.

BRAZORIA COUNTY, TEXAS

Notes to the Financial Statements

For the Year Ended September 30, 2025

NOTE 10 - TEXAS COUNTY AND DISTRICT RETIREMENT SYSTEM PENSION PLAN - Continued

Therefore, if plan investments in a given future year are greater than projected benefit payments in that year and are invested such that they are expected to earn the long-term rate of return, the discount rate applied to projected benefit payments in that year should be the long-term expected rate of return on plan investments. If future years exist where this is not the case, then an index rate reflecting the yield on a 20-year, tax-exempt municipal bond should be used to discount the projected benefit payments for those years.

The determination of a future date when plan investments are not sufficient to pay projected benefit payments is often referred to as a depletion date projection. A depletion date projection compares projections of the pension plan’s fiduciary net position to projected benefit payments and aims to determine a future date, if one exists, when the fiduciary net position is projected to be less than projected benefit payments.

Since the projected fiduciary net position is projected to be sufficient to pay projected benefit payments in all future years, the discount rate for purposes of calculating the total pension liability and net pension liability of the employer is equal to the long-term assumed rate of return on investments. This long-term assumed rate of return should be net of investment expenses, but gross of administrative expenses for GASB 68 purposes. Therefore, we have used a discount rate of 7.60%. This rate reflects the long-term assumed rate of return on assets for funding purposes of 7.50%, net of all expenses, increased by 0.10% to be gross of administrative expenses.

NOTE 11 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (OPEB)

Plan Description - The County's defined benefit OPEB plan, Brazoria County Retiree Benefits Plan (BCRBP), provides OPEB for all permanent full-time employees of the County. BCRBP is a single-employer defined benefit OPEB plan administered by the County. Local Government Code Section 157.101 assigns the authority to establish and amend benefit provisions to Commissioners Court. A separate audited report is not available.

Benefits Provided - BCRBP provides healthcare benefits for retirees and their dependents. Benefits are provided through a third-party insurer, and the full cost of the benefits is covered by the plan. To be eligible for retiree health coverage, the employee must be 60 years of age with 8 years of service, 30 years of service at any age or age plus service must be at least 75. Contributions - Local Government Code Section 157.102 assigns to Commissioners Court the authority to establish and amend contribution requirements of the plan members. The County may contribute all, part of, or none of the premium payment. The County establishes rates based on an actuarially determined rate. For the year ended September 30, 2025, the County's average contribution rate was 4.80% of covered payroll. Employees are not required to contribute to the plan.

Net OPEB Liability - The County's net OPEB liability of \$ 64,050,500 was measured as of September 30, 2025, and was rolled forward from the actuarial valuation as of October 1, 2023.

Actuarial assumptions and other inputs - The total OPEB liability in the October 1, 2023 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.50%
Salary increases	3.00%, per annum
Investment rate of return	4.50%, per annum
Health care trend rates	Trend rate of 6.21%

Mortality rates were based on the sex distinct PUB 2010 general employee headcount weighted mortality table with mortality improvement scale MP-2021 for non-annuitants, and sex distinct PUB 2010 retiree headcount weighted mortality table with mortality improvement scale MP-2021 for annuitants.

The actuarial assumptions used in the October 1, 2023 valuation were based on the experience study covering the four-year period ending December 31, 2020, as conducted for the Texas County and District Retirement System.

The long-term expected rate of return on OPEB plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Long-Term Expected Real Rate of Return</u>
Domestic Equity	18%	7.00%
International Equity	17%	7.80%
Fixed Income	30%	5.80%

Discount Rate - The discount rate used to measure the total OPEB liability was 4.77%. The projection of cash flows used to determine the discount rate assumed that County contributions will be made at rates equal to the actuarially determined contribution rates. Based on those assumptions, the OPEB plan's fiduciary net position was projected to be available to make all projected OPEB payments for current active and inactive employees. Therefore, the long-term expected rate of return on OPEB plan investments was applied to all periods of projected benefit payments to determine the total OPEB liability.

Changes in net OPEB Liability - The changes in the net OPEB liability as of September 30, 2025 are as follows:

Payable to the OPEB Plan - At September 30, 2025, the County did not have a payable for any outstanding contributions to BCRBP.

NOTE 12 - DEFERRED COMPENSATION AND POST-RETIREMENT LIFE INSURANCE BENEFITS

The County provides participating eligible employees the alternate plans of disability, survivorship and delayed compensation created in accordance with Internal Revenue Code Section 457. The Plans are administered by First Financial Benefits, Inc. (FFB). The plans are funded through tax-delayed employee contributions of 6.7% of eligible gross annual compensation. The County contributes an additional 6.7% of the total eligible gross annual compensation of all participating employees. The employee contribution is deposited into the employee’s retirement annuity account. The County contribution is applied to disability and survivorship benefit premiums with the remaining amounts contributed to the employee’s retirement annuity.

The County funds all amounts of compensation delayed under the plan through investment in a fixed rate group annuity contract underwritten by American United Life Insurance Company. Investments in these funds are reported at fair value. The delayed compensation is not available to employees until termination, retirement, death or unforeseeable emergency. Transactions within the annuity for the year are summarized below:

Balance - October 1, 2024	\$ 146,460,842
Contributions and earnings	23,615,232
Withdrawals, premiums, and benefits	<u>(13,441,126)</u>
Balance - September 30, 2025	<u>\$ 156,634,948</u>

Participants may make additional contributions to their Delayed Compensation Retirement Plan Account. These contributions will be in addition to the employees 6.7% contribution and the County's matching contribution.

The alternate plan also provides plan participants with long-term disability benefits through Lincoln Financial Group. The policy generally provides the totally disabled insured with benefits of 60 percent of base pay up to a maximum benefit of \$ 1,500 per month.

NOTE 12 - DEFERRED COMPENSATION AND POST-RETIREMENT LIFE INSURANCE BENEFITS -
Continued

A Group Term Life Insurance Policy is in effect which covers all participating employees. Benefits are a multiple of annual salary with maximum benefit of \$ 150,000. The plan also provides a paid-up death benefit of \$ 50,000 to employees who retire under certain provisions. Premiums are provided for the benefit through a portion of the County's contribution to the alternate plan. The funds are invested in an annuity with Standard Life Insurance Company referred to as the Retired Lives Reserve (RLR). Funds required for benefits payable under this plan are drawn from the annuity as needed.

A Group Annuity Contract to reimburse TCDRS eligible employees for amounts paid for health insurance benefits became effective on October 1, 1990. The plan provides \$ 295 per month until age 65 and then \$ 200 per month age 65 and over towards the cost of health insurance premiums.

Transactions within the annuities for the year are summarized below:

	<u>Retired Lives Reserve</u>	<u>Retiree Medical Plan</u>
Balance - October 1, 2024	\$ 8,547,818	\$ 14,560,671
Contributions and earnings	1,157,005	2,812,512
Withdrawals, premiums, benefits	<u>(64,007)</u>	<u>(2,073,349)</u>
Balance - September 30, 2025	<u>\$ 9,640,816</u>	<u>\$ 15,299,834</u>

Two additional delayed compensation plans are available to employees. The two plans are Nationwide and Lincoln National. The County does not participate and match benefits in these two plans. Transactions for these two plans are summarized below:

	<u>Nationwide</u>	<u>Lincoln</u>
Balance - October 1, 2024	\$ 2,696,075	\$ 77,163
Contribution and earnings	419,821	4,188
Withdrawals, premiums, benefits	<u>(197,915)</u>	<u>(2,536)</u>
Balance - September 30, 2025	<u>\$ 2,917,981</u>	<u>\$ 78,815</u>

The County has no liability for losses under the plan but does have the duty of due care that would be required of an ordinary prudent investor.

The County maintains a Group Annuity Contract to reimburse TCDRS eligible employees for amounts paid for health insurance benefits. The plan is a single-employer defined benefit plan. The Group Annuity Contract became effective on October 1, 1990. The plan provides \$ 295 per month until age 65 and then \$ 200 per month towards the cost of health insurance premiums. A separate, audited GAAP-basis post-employment benefit plan report is not available for this plan.

Funding Policy - The contribution requirements of the County are adopted by Commissioner's Court and may be amended at any time. For the year ended September 30, 2025, the County contributed \$ 2,318,809 to the Group Annuity Contract which includes net investment earnings, respectively.

NOTE 13 - SELF INSURANCE

Health Insurance

The County implemented a limited self-insured health care benefit and life AD&D coverage plan that became effective August 1, 1989. The plan was established to provide for the payment or reimbursement of all or a portion of eligible medical, dental and prescription drug expenses incurred by eligible participants and eligible dependents of such participants. The County is the named fiduciary and plan administrator and has the authority to control and manage the operation and administration of the plan. The County has the authority to amend the plan, to determine its policies, to appoint and remove plan supervisors and exercise general administrative authority over them.

The County, under the direction of the plan supervisor, Third Party Administrators, shall evaluate the cost of the plan and determine the amount to be contributed to the plan. The current contribution to the plan by the County was \$ 1,000 per eligible employee per month for the period October 1, 2024 through September 30, 2025. The contributions, or interfund premiums paid into the Self Insurance Health Fund (Internal Service Fund) are available to pay claims and administrative costs of the plan with a portion of the premiums set aside as reserves for anticipated claims. The total contribution to the plan for the fiscal year ended September 30, 2025 was \$ 24,847,245. The plan provides limited medical care benefits to the eligible participants up to \$ 1,000,000 lifetime maximum benefit. The plan has in place an excess loss insurance policy through SA Benefit Services LLC, which covers claims in excess of \$ 250,000 per participant in any calendar year, with a maximum aggregate benefit of \$ 1,000,000 per coverage period. Estimated claims payable at September 30, 2025 was \$ 2,663,598.

Insurance Reserve

Brazoria County established a self-insurance reserve within the General Fund in 1979. This reserve was established to provide coverage for general liability and automobile risks including settlements, claims and costs in defense of torts, civil rights, contractual suits, environmental protection and defense of County employees not covered by or in excess of commercial insurance limits. In the fiscal year ended September 30, 1989, the Commissioners Court transferred the balance of \$ 311,658 into a self-insurance internal service fund. This was done to facilitate control where all costs and claims can be charged to the fund from which the related liability arose. The repayment of these claims and expenses is reported as expenditures/expenses in the respective funds. The self-insurance fund reports the receipt of the interfund repayment as operating revenue with all legal costs and claims reported as an operating expense. Estimated claims payable at September 30, 2025 was \$ 400,000.

The County is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The County maintains commercial coverage for these risks and self-insures amounts in excess of insurance coverage. There have been no significant changes in insurance coverage and settlements (related to self-insurance). For the years ended September 30, 2025, claims and settlements in excess of insurance coverage amounted to \$ 399,416.

The following is a reconciliation of changes in the aggregate liabilities for claims for the years ended September 30, 2025 and 2024 for both actual and estimated liabilities:

	<u>2025</u>	<u>2024</u>

Health Clinic

Brazoria County established a Wellness Clinic on October 3, 2012, in an effort to reduce health insurance costs. Participation is voluntary if you are enrolled in the County’s medical plan either as an employee, their dependent or retiree. The clinic offers a range of health and wellness services such as primary health care, health screenings, laboratory services, preventative care support, health education and more. Services are free to all County health insurance plan members. The County is contracting with a third party to manage the clinic.

The following is a reconciliation of changes in the aggregate liabilities for claims for the years ended September 30, 2025 and 2024 for actual liabilities:

	<u>2025</u>	<u>2024</u>

NOTE 14 - CONTINGENCIES

The County is contingently liable in respect to lawsuits and other claims in the ordinary course of its operations. In August 2025, a material settlement was reached regarding a breach of contract claim. *Pullice Construction, Inc. v. Brazoria County, Texas and Brazoria County Toll Road Authority*, originally filed in 2024. Under the terms of the court-approved settlement agreement, the Brazoria County Toll Road Authority agreed to a total payment of \$ 2,334,042 to resolve all outstanding claims. This amount was paid during the year ended September 30, 2025 and was recognized as an infrastructure capital asset due to the settlement’s direct relation to the construction of the Brazoria County Expressway. The County has recorded a contingent estimated liability of \$ 400,000 in the Self Insurance Liability Fund (Internal Service Fund) as of September 30, 2025 to account for any unexpected outcomes related to these civil lawsuit claims.

NOTE 15 - GRANTS, ENTITLEMENTS AND SHARED REVENUES

During the year ended September 30, 2025, the County applied for and received federal and state grants related to various activities. The operations of these grants are reported in the general fund, various special revenue funds, capital projects fund, and the enterprise fund. These grants are reimbursement type grants, therefore, revenues equal expenditures. Grant revenues are classified as intergovernmental revenues. The federal grants are covered by the requirements of the Single Audit Act and the Uniform Guidance. The state grants are covered by the Texas Grant Management Standards.

NOTE 16 - BAIL BOND COLLATERAL

The County holds, as collateral, time deposits and other cash equivalents and real property pledged toward bail bonds. The County does not have access to the assets unless the bond is violated; therefore, these assets are not reported in the financial statements of the County as of September 30, 2025. As of September 30, 2025, bail bonds outstanding totaled \$ 91,017,892 and collateral pledged against these bonds amounted to \$ 6,154,898.

NOTE 17 - PEARLAND-MANVEL LANDFILL

The Pearland-Manvel Landfill site is a five-acre tract deeded from Brazoria County to the City of Pearland for use as a landfill during the 1950's and 60's. Upon completion of its use as a landfill the tract reverted to Brazoria County pursuant to the original instrument of conveyance. In the mid 1980's the Texas Department of Health reviewed the site, which was also the subject of some litigation because of the presence of some radioactive materials. These materials apparently were placed on the property by third parties illegally. No action was taken at that time against Brazoria County. In 2001, the then Texas Natural Resources Conservation Commission reopened its review of the site and mandated further investigation and remediation if appropriate. Brazoria County and the City of Pearland agreed to split evenly the costs of such investigation and remediation because of the fact that both entities at one time had dominion over the property. A phase one study has been presented to the Texas Commission on Environmental Quality (TCEQ). The scope of work in compliance with the findings of the phase one study has also been submitted to the Commission. They responded with another comment letter on November 17, 2004 to which the County responded with a letter to the Commission dated December 30, 2004, agreeing to the installation of a fourth additional groundwater monitoring well. The County's legal and technical representatives met with the Commission on April 20, 2005 and agreed to relocate the three wells. Another comment letter dated October 11, 2005 was received from the Commission after that meeting, and the County's environmental consultants responded by letter on December 14, 2005 and proceeded to install the new monitoring wells in December 2005. Additional sampling was conducted in March 2006, and the new wells were found to not have contamination above applicable TCEQ standards. Results of the latest sampling were reported to TCEQ on October 31, 2006, but no response has been received. At this time the County proposes to leave all existing solid waste and radioactive material deposited at the landfill (as opposed to excavating and removing the same) coupled with a restriction of access and prohibition against future residential use of the site. Periodic future testing and financial assurance may also be necessary. Since the TCEQ has not yet responded to the last submission by the County, the County is not in a position to determine the extent of remediation activities that will ultimately be required in connection with the Landfill. Environmental consultants have been paid \$ 276,736 for their work to date. Half of that expense has been shared by the City of Pearland. The consultant estimates that the costs for additional work suggested by the Commission would total an additional \$ 27,338.

Further, Brazoria County has retained outside assistance in the environmental legal aspects of this matter. To date the County has spent \$ 51,632 in such legal expenses. An additional \$ 10,326 has been authorized for further legal services. At September 30, 2025, the County has recorded an accrued liability in the amount of \$ 62,664, which includes its portion of estimated costs as well as \$ 25,000 for estimated ongoing costs of monitoring.

NOTE 18 - TAX ABATEMENTS

The County enters into property tax abatement agreements with taxpayers under the State Property Tax Abatement Act, Tax Code Chapter 312. Under the act, the County may enter into a local agreement with a taxpayer that exempts all or part of the increase in the value of the real property and/or tangible personal property from taxation for a period not to exceed 10 years. Tax abatements are an economic development tool available to the County to attract new industries and to engage in the retention and development of existing businesses through property tax exemptions or reductions.

For the year ended September 30, 2025, the County abated property taxes totaling \$ 35,676,162 under this program, including the following tax abatement agreements that exceed 10 percent of the total amount abated:

- A 100 percent property tax abatement to an integrated manufacturing complex to engineer, procure and construct a chemical manufacturing facility. The property taxes abated in the current fiscal year amounted to \$ 3,999,585. This abatement agreement is set to expire on December 31, 2024.
- A 100 percent property tax abatement for the construction of a natural gas liquefaction and liquefied natural gas export facility and pre-treatment facilities. The property taxes abated in the current fiscal year amounted to \$ 6,192,814. This abatement agreement is set to expire on December 31, 2024.
- A 100 percent property tax abatement for the construction of a natural gas liquefaction and liquefied natural gas export facility and pre-treatment facilities. The property taxes abated in the current fiscal year amounted to \$ 6,455,088. This abatement agreement is set to expire on December 31, 2025.
- A 100 percent property tax abatement for the construction of a natural gas liquefaction and liquefied natural gas export facility and pre-treatment facilities. The property taxes abated in the current fiscal year amounted to \$ 5,605,554. This abatement agreement is set to expire on December 31, 2025.

NOTE 19 - EVALUATION OF SUBSEQUENT EVENTS

The County has evaluated subsequent events through March 12, 2026, the date which the financial statements were available to be issued.

On January 27, 2026, The County approved to ratify the defeasance of the Unlimited Tax Refunding Bonds, Series 2016, the Unlimited Tax Refunding Bonds, Series 2018, and the Certificates of Obligation, Series 2018. The County paid a total of \$ 8,474,700 to fully extinguish the outstanding principal balances of each of the listed series. This early redemption will result in a decrease in the County's governmental activities general long-term debt by \$ 8,285,000 over the remaining life of the bonds. This transaction had no effect on the financial position or results of operations for the year ended September 30, 2025.

FEDERAL AND STATE AWARDS SECTION

Independent Auditor's Report

On Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

To the Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of Brazoria County, Texas (the "County"), as of and for the year ended September 30, 2025, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated March 12, 2026.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements, on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of This Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

On Compliance for Each Major Program and on Internal Control Over Compliance Required by the Uniform Guidance and Texas Grant Management Standards

To the Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

Report on Compliance for Each Major Federal and State Program

Opinion on Each Major Federal and State Program

We have audited Brazoria County, Texas' (the "County") compliance with the types of compliance requirements identified as subject to audit in the OMB *Compliance Supplement* and Texas Grant Management Standards that could have a direct and material effect on each of County's major federal and state programs for the year ended September 30, 2025. The County's major federal and state programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the year ended September 30, 2025.

Basis for Opinion on Each Major Federal and State Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance); and the Texas Grant Management Standards (TxGMS). Our responsibilities under those standards, the Uniform Guidance and TxGMS are further described in the Auditor's Responsibilities for the Audit of Compliance section of our report.

We are required to be independent of the County and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each major federal and state program. Our audit does not provide a legal determination of County's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, statutes, regulations, rules, and provisions of contracts or grant agreements applicable to the County's federal and state programs.

The Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

Auditor's Responsibilities for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the County's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and TxGMS will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the County's compliance with the requirements of each major federal and state program as a whole.

In performing an audit in accordance with generally accepted auditing standards, *Government Auditing Standards*, the Uniform Guidance and TxGMS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the County's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the County's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance and TxGMS, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

The Honorable County Judge
and Members of Commissioners Court
Brazoria County, Texas

Report on Internal Control over Compliance

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal and state program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal and state program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal and state program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the Auditor's Responsibilities for the Audit of Compliance section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance. Given these limitations, during our audit we did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and TxGMS. Accordingly, this report is not suitable for any other purpose.

BRAZORIA COUNTY, TEXAS

*Notes to Schedule of Expenditures of Federal and State Awards
For the Year Ended September 30, 2025*

1. The County uses funds and account groups to report its financial position and the results of its operations. Fund accounting is designated to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts. An account group, on the other hand, is a financial reporting device designated to provide accountability for certain assets and deferred outflows of resources, and liabilities and deferred inflows of resources that are not recorded in the funds because they do not directly affect net expendable available resources. Funds are classified into three categories: governmental, proprietary, and fiduciary. Each category, in turn is divided into separate "fund types". The following fund types were utilized to account for federal awards.

Governmental Fund Types:

General Fund - this is the general operating fund of the County. All financial resources, except those required to be accounted for in another fund, are accounted for in the General Fund. Federal financial assistance not required to be reported in other funds is accounted for in the General Fund.

Special Revenue Funds - used to account for proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. Federal financial assistance generally is accounted for in a Special Revenue Fund unless required to be reported in a Capital Projects Fund or a proprietary fund type. Generally, unused balances are returned to the grantor at the close of specified project periods.

Capital Projects Funds - used to account for financial resources to be used for the acquisition or construction of major capital facilities which are not financed by Proprietary and Trust Funds. Federal financial assistance for the construction of major capital facilities generally is accounted for in a Capital Projects Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.

Proprietary Fund Types:

Enterprise Fund - used to account for activities similar to those found in the private business enterprises, where the intent of the governing body is that costs (expenses, including depreciation) of providing services be financed primarily through user charges, or where periodic determination of net income is appropriate. Federal financial assistance for the benefiting enterprise operations generally is accounted for in the Enterprise Fund. Generally, unused balances are returned to the grantor at the close of specified project periods.

2. The accounting and financial reporting treatment applied to a fund is determined by its measurement focus. The Governmental Fund types are accounted for using a current financial resources measurement focus. With this measurement focus, only current assets and deferred outflows of resources, and current liabilities and deferred inflows of resources generally are included on the balance sheet. Operating statements of these funds present increases (i.e., revenues and other financing sources) and decreases (i.e., expenditures and other financing uses) in fund balance. Federal and State grant funds were accounted for in the General Fund, Special Revenue Fund, and the Capital Projects Fund, a component of the Governmental Fund type.

BRAZORIA COUNTY, TEXAS

Notes to Schedule of Expenditures of Federal and State Awards
For the Year Ended September 30, 2025

The Proprietary Fund Types are accounted for on a flow of economic resources measurement focus. With this measurement focus, all assets and deferred outflows of resources, and all liabilities and deferred inflows of resources associated with the operation of these funds are included on the balance sheet. Fund equity (net total position) is segregated into contributed capital and retained earnings components for proprietary funds. Proprietary fund type operating statements present increases (revenues) and decreases (expenses) in net total position. Federal grant funds were accounted for in the Enterprise Fund (Airport), a component of the Proprietary Fund type.

The modified accrual basis of accounting is used for the Governmental Fund Types. This basis of accounting recognizes revenues in the accounting period in which they become susceptible to accrual, i.e., both measurable and available, and expenditures in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on General Long-Term Debt, which is recognized when due, and certain compensated absences and claims and judgments, which are recognized when the obligations are expected to be liquidated with expendable available financial resources.

The accrual basis of accounting is used for the Proprietary Fund Types. Under this method, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred.

Federal grant funds are considered to be earned to the extent of expenditures/expenses made under the provisions of the grant, and, accordingly, when such funds are received, they are recorded as unearned revenues until earned.

3. The period of availability for federal and state grant funds for the purpose of liquidation of outstanding obligations made on or before the ending date of the federal and state project period extended 30 days beyond the federal project period ending date, in accordance with provisions in Section H, Period of Availability of Federal Funds, Part 3, OMB Compliance Supplement and the Texas Grant Management Standards.
4. The following schedules are reimbursements the County received for indirect costs incurred during the year ended September 30, 2025:

<u>Program Title</u>	<u>ALN Number</u>	<u>Amount</u>
Women, Infants and Children (WIC)	10.557	\$ 174,533
CPS-Cities Readiness Initiative	93.069	3,661
Foster Care Title IV-E	93.658	13,682
CDC's Collaboration with Academia to Strengthen Public Health	93.967	<u>19,545</u>
Total		\$ <u>211,421</u>

5. Indirect Cost Rate - The County has not elected to use the 15% de minimis indirect cost rate as allowed under the Uniform Guidance, Section 200.414.
