An additional 4 years of Preventative Maintenance can be provided for \$38,400.00.
You can deduct \$20,000.00 for a standard Docking Station in lieu of the dual purpose docking station.
You can deduct \$75,000.00 to eliminate the bypass option on the new transfer switch.

Notes:

The cost of bonds are included.

** We did not include any portable generators in the proposal as we are not aware of a requirement for this. We expect to be able to complete our work with one power outage of 12 hours or so. If the County decides to provide a portable generator for this outage and the County provides the portable cables we will provide the labor to make the electrical connections. If you would like us to provide a generator for the outage we can do so for \$22,000.00.

The generators that we are offering do not meet the Build America, Buy America ACT as no generator manufacturer does. I am told that the County can request a waiver from the federal government and that it will be granted as no generator manufacturer meets this requirement.
